

**Title of the study: The Relationship Between Maternal Health Literacy and Knowledge and Attitudes
About Newborn Screenings in Different Ethnic Groups**

1. Your ethnic background?

- ☐ Turkish
- ☐ Arab
- ☐ Kurdish

2. The age of the mother?

- ☐ 18-24
- ☐ 25-30
- ☐ 31-35
- ☐ 36 and older

3. Mother's education level

- ☐ Primary school
- ☐ Secondary school
- ☐ High school
- ☐ Bachelor's degree

4. Employment status of mother?

- ☐ Employed
- ☐ Unemployed

5. Level of income

- ☐ Income is lower than expenditure
- ☐ Income equal to expenditure
- ☐ Income is higher than expenditure

6. Availability of health insurance?

- ☐ Yes
- ☐ No

7. Is there consanguineous marriage between the parents?

- ☐ Yes
- ☐ No

8. Presence of hereditary disease in the family?

- ☐ Yes
- ☐ No
- ☐ Do not know

9. Number of pregnancies?

- ☐ 1
- ☐ 2
- ☐ 3
- ☐ 4
- ☐ 5 and more

10. Number of miscarriages?

- ☐ 1 and more
- ☐ No

11. Number of children in the family?

- ☐ 1
- ☐ 2
- ☐ 3
- ☐ 4 and more

12. Having regular check-ups during your pregnancy

- ☐ Yes
- ☐ No

13. Time to start pregnancy follow-up

- ☐ I did not have a follow-up done
- ☐ I started in the first three months of pregnancy
- ☐ I started between the 3rd and 6th months of pregnancy
- ☐ I started between the 6th and 8th months of pregnancy
- ☐ I started after the 8th months of pregnancy

14. Newborn screening programs are carried out only with heel lancing

- ☐ Yes
- ☐ No
- ☐ Do not know

15. What do you think is the best time to learn about newborn screenings?

- ☐ 2-3 months before the baby is born
- ☐ 2-3 weeks before the baby is born
- ☐ When the baby is screened
- ☐ Mothers do not need training about newborn screenings
