

PORTRAITS OF RESILIENCE

an art + research collab

Individual Reflection

Before Individual Photo Narrative Guide

1. How many pictures did you take?
2. How long did it take you to finish taking pictures?
3. What was the most challenging part of taking these pictures?

Individual Narrative Guide

Instructions: Have participant number each photo by writing a number on the back of each photo. Participant should organize photographs by community sources of (1) risk and (2) resilience. Proceed with Individual Narrative Guide for each photo, using the Sound Recorder App to record responses. Have participants identify the photo by the number written on the back. Participants may indicate similar responses for multiple photographs if they wish to group certain photographs together. If this is the case, list the numbers for each photograph if they wish to speak to a grouping of photographs; however, provide them the space to identify specifics they may want to expand upon for individual photographs in groupings.

After Photo Narrative Guide

4. Based on what you've photographed, what are the greatest sources of resilience in your community?
5. Based on what you've photographed, what are the greatest sources of risk in your community?
6. Are there other sources of community risk that don't appear in your photographs?
7. Are there other sources of community resilience that don't appear in your photographs?
8. Based on your photographs, do you think anything needs to change in your community? If so, please tell me more.
