

Appendix C: Group Membership Allocation

Initial Group Membership	Surgical	Non-Surgical	Control	Pilot	None	Total
Surgical	8	0	0	4	0	12
Non-Surgical	0	12	0	3	1	16
Control	0	0	10	2	1	13
Total:	8	12	10	9	2	41

There were initially 12 subjects in the Surgical group, 16 subjects in the Non-Surgical group, and 13 subjects in the Control group. 4 Subjects from the Surgical group were moved to the Pilot group: three surgical subjects only had preoperative video with no follow-ups, and one only had a one-year follow-up with no pre-operative footage. Three subjects from the Non-Surgical group were moved to the Pilot group: two were male, and the third was randomly selected. Two subjects from the control group were randomly selected to be moved to the Pilot group. One subject from the Non-Surgical group and one subject from the Control Group had no video data.
