

Expert Panel Survey

Item	What is the most appropriate radiological exam?		If CBCT, please specify the diagnostic relevance				
	OPG/TLL	CBCT+ diagnostic severity index	No importance 0	Low importance 1	Mild importance 2	Moderate Importance 3	High importance 4
Relationship between M2M roots and inferior alveolar nerve							
M2M position respect to alveolar crest							
M2M depth respect to M1M							
M2M inclination respect to M1M							
M3M position respect to M2M							
Relationship between M2M and the lingual plate							

How much did CBCT and the proposed severity index influence your clinical decision concerning the following items?						
	No 0	Low 1	Mild 2	Moderate 3	High 4	
Exposure/ Traction/ Extraction						
Instructions for M2M traction position						
Biomechanics						
Patient and his parents' education						
Increase of treatment time
