

QUESTIONS ABOUT VOLUNTEERING AND NEW TECHNOLOGIES (Patients)

Hello! We would like to know your opinion about some aspects related to the use of New Technologies between a volunteer and a patient or family member with whom he/she spends time, being able to be in a non face-to-face way through a screen or using a mobile phone or a tablet as another tool in a face-to-face accompaniment. There are no right or wrong answers, we want to know your opinion on different aspects of this topic, as this will help us to keep learning and growing in Cudeca's volunteer care programmes. It doesn't matter if you have never spent time with a volunteer before, your opinion is also very valuable to us.

Thank you very much for your time!

Volunteer Department.
