

Medical Assistance in Dying (MAiD) Delivery in Canada

Have you or your loved one had experience with MAiD in Canada?
Join Our Research Study.

What are we investigating?

Over the past 6 years, equity concerns around access to MAiD services, particularly among vulnerable populations, have been raised. To better understand and address these concerns, a comprehensive review of existing MAiD programs in provinces and territories is needed.

Are you...

- ☐ A patient or loved one who have enquired about MAiD?
- ☐ A loved one of a patient who has carried through with MAiD?

What is involved?

Participants will be asked, in an online or phone interview to describe their experience with MAiD for a loved one/family member or when exploring the options for themselves.

For more information or to volunteer as a participant, please contact the Project Team at: htpu@ualberta.ca
