

Supplementary Material 2: Evaluation of trust for all participants (graphically and in table format)

Diagram

Overview of total trust scores across the treatment pathway for all participants

Total score trust in physicians – all phases (f=57)	Mean (Median); min/max	3.7 (4); 2/4
Total score trust in physicians – diagnosis (n=12)	Mean (Median); min/max	3.8 (4); 3/4
Total score trust in physicians – neoadj. chemo (n=6)	Mean (Median); min/max	3.5 (3.6); 3/4
Total score trust in physicians – surgery (n=12)	Mean (Median); min/max	3.9 (4); 3.4/4
Total score trust in physicians – adj. chemo (n=4)	Mean (Median); min/max	3.5 (3.4); 3/4
Total score trust in physicians – adj. radiation (n=11)	Mean (Median); min/max	3.6 (3.8); 2.8/4
Total score trust in physicians – follow-up (n=12)	Mean (Median); min/max	3.6 (4); 2/4
Total score trust in nurses – all phases (f=56)	Mean (Median); min/max	3.7 (4); 1/4
Total score trust in nurses – diagnosis (n=11)	Mean (Median); min/max	3.8 (4); 3/4
Total score trust in nurses – neoadj. chemo (n=6)	Mean (Median); min/max	3.8 (4); 2.8/4
Total score trust in nurses – surgery (n=12)	Mean (Median); min/max	3.8 (4); 3/4
Total score trust in nurses – adj. chemo (n=4)	Mean (Median); min/max	3.6 (3.6); 3/4
Total score trust in nurses – adj. radiation (n=11)	Mean (Median); min/max	3.6 (4); 1/4
Total score trust in nurses – follow-up (n=12)	Mean (Median); min/max	3.7 (4); 1.4/4
Total score trust in organization – all phases (f=55)	Mean (Median); min/max	3.5 (4); 1.3/4
Total score trust in organization – diagnosis (n=10)	Mean (Median); min/max	3.6 (4); 2.8/4
Total score trust in organization – neoadj. chemo (n=6)	Mean (Median); min/max	3.6 (4); 2.8/4
Total score trust in organization – surgery (n=12)	Mean (Median); min/max	3.6 (3.9); 2.8/4
Total score trust in organization – adj. chemo (n=4)	Mean (Median); min/max	3.1 (3.1); 2/4
Total score trust in organization – adj. radiation (n=11)	Mean (Median); min/max	3.5 (3.8); 2/4
Total score trust in organization – follow-up (n=12)	Mean (Median); min/max	3.6 (4); 1.3/4

Legend: N=number of participants per phase, f=number of questionnaires over all phases. Note: not all participants went through every phase.
