820	Has your (husband/partner) or any other family member ever tried to pressure you to become pregnant when you did not want to become pregnant?	Yes...1 No....2
	Birth order is not directly asked but is derived from the full birth history section	
	Wealth Index is not directly asked in the questionnaire. It is calculated based on based on the number and kinds of consumer goods they own, ranging from a television to a bicycle or car, and housing characteristics such as source of drinking water, toilet facilities, and flooring materials. These scores are derived using principal component analysis. National wealth quintiles are compiled by assigning the household score to each usual (de jure) household member, ranking each person in the household population by her or his score, and then dividing the distribution into five equal categories, each comprising 20% of the population. Mentioned in the NDHS Report page no. 11
