

Ethics Committee of the Faculty of Medicine of Monastir
ETHICAL APPROVAL LETTER

Protocol reference : IORG 0009738 N 211 /OMB 0990-0279

Protocol title: Factors associated with breast cancer mammography screening and breast self-examination in the central of Tunisia: A community-based cross-sectional study.

Principal Investigator : Dr Cyrine Bennasrallah

Institution: University Hospital of Monastir/ Faculty of Medicine of Monastir

Submission date : 01/10/2025

Committee meeting date: 07/10/2025

After reviewing the research protocol submitted by the Principal Investigator, the Ethics Committee of the Faculty of Medicine of Monastir certifies that the above-mentioned protocol:

- Complies with the ethical principles of the Declaration of Helsinki and applicable regulations
- Ensures confidentiality and protection of personal data
- Guarantees clear information and free and informed consent of study participants
- Does not present major risk to the subjects involved

Consequently, following deliberation (in the absence of the Investigator), the Ethics Committee unanimously grants approval for the implementation of this research protocol.

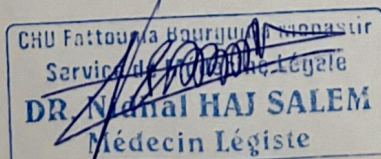

Any substantial amendment to the protocol must be submitted for further evaluation by the Committee.

Issued in Monastir, on 08/10/2025

For the Ethics Committee

Prof. Nidhal Haj Salem

Assoc. Prof. Manel Ben Fredj
