

Supplementary Table

Gray value of target protein bands (Groups from left to right):

vehicle PRE LPS LPS+PRE 50ng/mL LPS+PRE 100ng/mL LPS+PRE 200ng/mL

The following gels corresponded to Figure5

Protein name:

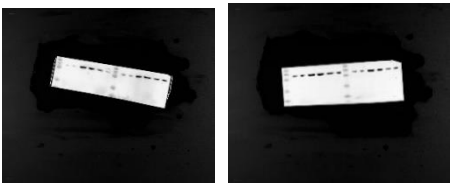

IKB

The right band

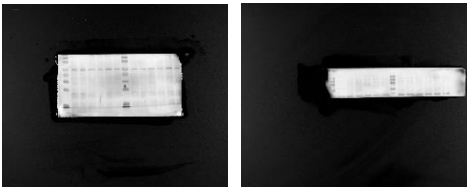

The left band

p-IKB

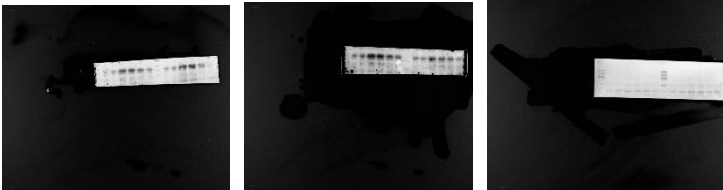

The left band

P65

The right band

p-P65

The left band

The left band

The right band

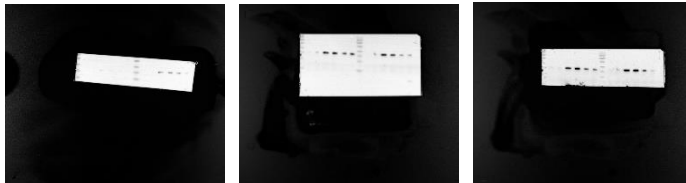

IL-6

The left band

The left band

TNF- α

The right band

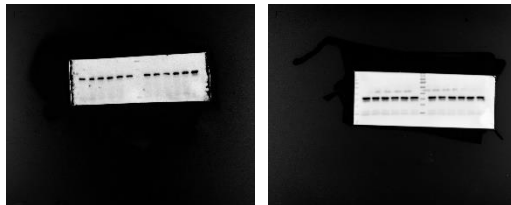

The right band

The left band

TLR4

β -actin

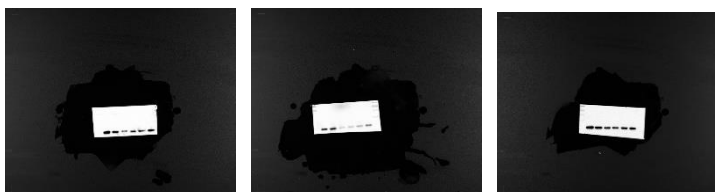

The left band

The following gels corresponded to Figure 4.

Protein name:

HO1

SOD1

The left band

SOD2

The right band

β -actin

The left band
