

# Interprofessional Clinical Placement Learning Environment Inventory (ICPLEI)<sup>©</sup>

## INSTRUCTIONS:

Please circle one number between 1 (Strongly disagree) to 5 (Strongly agree) in response to each statement.

|                                                                                                                                 | Disagree<br>strongly | Disagree | Neither<br>agree nor<br>disagree | Agree | Agree<br>strongly |
|---------------------------------------------------------------------------------------------------------------------------------|----------------------|----------|----------------------------------|-------|-------------------|
| 1. The purpose (learning objectives) of this placement was made clear.                                                          | 1                    | 2        | 3                                | 4     | 5                 |
| 2. I needed more orientation to this placement.                                                                                 | 1                    | 2        | 3                                | 4     | 5                 |
| 3. Orientation was relevant and well organised.                                                                                 | 1                    | 2        | 3                                | 4     | 5                 |
| 4. The teaching strategies helped my learning.                                                                                  | 1                    | 2        | 3                                | 4     | 5                 |
| 5. My preference is for teachers to be of the same discipline as the student.                                                   | 1                    | 2        | 3                                | 4     | 5                 |
| 6. I valued having more than my own discipline being involved in teaching.                                                      | 1                    | 2        | 3                                | 4     | 5                 |
| 7. There was too much supervision on this placement.                                                                            | 1                    | 2        | 3                                | 4     | 5                 |
| 8. This clinical placement was interesting.                                                                                     | 1                    | 2        | 3                                | 4     | 5                 |
| 9. The workload was too heavy.                                                                                                  | 1                    | 2        | 3                                | 4     | 5                 |
| 10. There was too much pressure on me in this placement.                                                                        | 1                    | 2        | 3                                | 4     | 5                 |
| 11. This clinical placement was well organised.                                                                                 | 1                    | 2        | 3                                | 4     | 5                 |
| 12. I usually had a clear idea of what was expected of me.                                                                      | 1                    | 2        | 3                                | 4     | 5                 |
| 13. I achieved the discipline specific learning objectives set by my university.                                                | 1                    | 2        | 3                                | 4     | 5                 |
| 14. My other student commitments didn't interfere with my involvement in this placement.                                        | 1                    | 2        | 3                                | 4     | 5                 |
| 15. The placement provided me with sufficient clinical learning opportunities.                                                  | 1                    | 2        | 3                                | 4     | 5                 |
| 16. I felt as if I belonged to the ward.                                                                                        | 1                    | 2        | 3                                | 4     | 5                 |
| 17. The teachers were friendly and approachable.                                                                                | 1                    | 2        | 3                                | 4     | 5                 |
| 18. This placement has given me new insights in how a ward is run and managed.                                                  | 1                    | 2        | 3                                | 4     | 5                 |
| 19. After this placement, I understand more fully my discipline's role in the interprofessional clinical team.                  | 1                    | 2        | 3                                | 4     | 5                 |
| 20. After this placement, I have a greater understanding of the role and function of other disciplines in health care delivery. | 1                    | 2        | 3                                | 4     | 5                 |
| 21. I felt comfortable in asking for advice or assistance when necessary from my student colleagues.                            | 1                    | 2        | 3                                | 4     | 5                 |
| 22. I felt <u>uncomfortable</u> taking a lead in a student group.                                                               | 1                    | 2        | 3                                | 4     | 5                 |
| 23. I felt <u>uncomfortable</u> sharing responsibility for delivery of health care.                                             | 1                    | 2        | 3                                | 4     | 5                 |
| 24. I felt comfortable putting forward my personal opinions in a group.                                                         | 1                    | 2        | 3                                | 4     | 5                 |
| 25. After this placement, I have a better understanding of the patient's role in health care decision making.                   | 1                    | 2        | 3                                | 4     | 5                 |
| 26. I felt comfortable communicating with patients and families to seek their input into care.                                  | 1                    | 2        | 3                                | 4     | 5                 |

**27. Your comments:**

(a). What were the best aspects of this placement? Please explain why.

(b). What aspects of this placement could be improved? Please explain how.

Thank you for completing this survey.

Notes: This survey aims to generate feedback from healthcare students about the learning environment offered them during an interprofessional clinical placement. This experience generally involves pre-registration medical, nursing and/or allied health students in shared learning in a 'training ward', caring for patients (under supervision). They are asked to rate orientation, supervision, role, autonomy and teamwork. Six questions (Nos. 2, 7, 9, 10, 22, 23) are reversed and reverse-scored to achieve the final ratings.
