

Jiaxing Maternity and Child Health Care Hospital

Instructions for Patients

Dear patient friend:

I am very glad that you can participate in our gynecology teaching reform program. In this program the trainee doctors will provide you with a detailed and comprehensive medical history inquiry and physical examination under the guidance of a senior attending physician. This teaching reform can improve the knowledge and experience of trainee doctors, and will provide great help for them to face the real clinical environment in the future. Your support is a contribution to the development of future excellent doctors!

Thank you for your cooperation!
