

Geriatric TBL Survey (PA students)

Showing 20 of 20 responses

Showing **all** responses

Showing **all** questions

Response rate: 20%

1 I have read the participant information included with this questionnaire

YES  20 (100%)
NO | 0

1.a I am over the age of 18

YES  20 (100%)
NO | 0

1.b I understand that no personal identifying data is collected in this study, therefore I know that once I have completed the questionnaire I am unable to withdraw my data from the study

YES  20 (100%)
NO | 0

1.c I agree that my data can be anonymised, stored and used in future research in line with Brunel University's data retention policies

YES  20 (100%)
NO | 0

1.d I agree that all opinions expressed in the questionnaire will be kept confidential.

YES		20 (100%)
NO		0

1.e I agree to take part in this study

YES		20 (100%)
NO		0

2 Have you participated in TBL before this module?

Yes		13 (65%)
No		7 (35%)

3 Past experience. Please indicate your level of agreement

3.1 Your past experience of TBL was good

Strongly agree		11 (57.9%)
Agree		3 (15.8%)
Neutral		0
Disagree		0
Strongly disagree		0
N/A		5 (26.3%)

Multi answer: Percentage of respondents who selected each answer option (e.g. 100% would represent that all this question's respondents chose that option)

3.a Please comment on your answer

Showing first 5 of 15 responses	
I like that the TBL has an interactive componenet	1082499-1082481-114082304
Have never previously participated in TBL, this module was first introduced in this course and it is extremely useful	1082499-1082481-114082208
its always been engaging and informative	1082499-1082481-114082256
Very interactive and taught me how to argue points	1082499-1082481-114082223
able to work in a team and learning better than PBL	1082499-1082481-114082346

4 Did you complete the TBL preparation material?

4.a Please comment on your answer

Showing first 5 of 10 responses	
the preperation material really helps us to deepen our knowledge before.	1082499-1082481-114082304
yes i did	1082499-1082481-114082208
Completed	1082499-1082481-114082256
when material is provided, preparation is always done beforehand	1082499-1082481-114082281
The before hand information was helpful	1082499-1082481-114082227

5 Geriatric TBL module experience. Please indicate your level of agreement.

5.1 TBL requires more preparation time

represent that all this question's respondents chose that option)

5.2 The test at the beginning of the class prepared you for the group discussions

Multi answer: Percentage of respondents who selected each answer option (e.g. 100% would represent that all this question's respondents chose that option)

5.3 Group discussions facilitated your understanding

Multi answer: Percentage of respondents who selected each answer option (e.g. 100% would represent that all this question's respondents chose that option)

5.4 The group test enhanced your learning

Multi answer: Percentage of respondents who selected each answer option (e.g. 100% would represent that all this question's respondents chose that option)

5.5 The application exercise helped you apply your knowledge

Multi answer: Percentage of respondents who selected each answer option (e.g. 100% would represent that all this question's respondents chose that option)

6 TBL compared to other teaching methods. Please indicate your level of agreement.

6.1 TBL is more effective for my learning than lectures

Multi answer: Percentage of respondents who selected each answer option (e.g. 100% would represent that all this question's respondents chose that option)

6.2 TBL is more effective for my learning than PBL

Multi answer: Percentage of respondents who selected each answer option (e.g. 100% would represent that all this question's respondents chose that option)

7 Overall experience. Please indicate your level of agreement

7.1 TBL is an effective learning method

Multi answer: Percentage of respondents who selected each answer option (e.g. 100% would represent that all this question's respondents chose that option)

7.2 TBL should be used for all my teaching where possible

Multi answer: Percentage of respondents who selected each answer option (e.g. 100% would represent that all this question's respondents chose that option)

7.3 TBL should replace lectures

Multi answer: Percentage of respondents who selected each answer option (e.g. 100% would represent that all this question's respondents chose that option)

7.4 TBL should replace PBL

Multi answer: Percentage of respondents who selected each answer option (e.g. 100% would represent that all this question's respondents chose that option)

7.5 TBL should be used alongside lectures and PBL

Multi answer: Percentage of respondents who selected each answer option (e.g. 100% would represent that all this question's respondents chose that option)

7.a Please comment on your answer

Showing first 5 of 13 responses	
For topics that are quite heavy such as chest pains, COPD, asthma, endocrine - thyroid, diabetes, TBL would be helpful to learn information	1082499-1082481-114082224
No PBL, time can be used better rather than PBL.	1082499-1082481-114082208
it should be used alongside lectures to supplement learning but not necessarily replace lectures	1082499-1082481-114082256
TBL is better than PBL.	1082499-1082481-114082346
PBL is more in depth and discussions are also carried out at the end of PBL so its very useful	1082499-1082481-114082281

8 Do you have any other comments?

Showing first 5 of 6 responses	
no	1082499-1082481-114082256
no	1082499-1082481-114082281
TBL is far most best method of interactive learning	1082499-1082481-114082227
If PBL was a problem to solve rather than a presentation on one condition it might be more beneficial.	1082499-1082481-114082207
N/A	1082499-1082481-114082183
