

Caries and Periodontitis Risk Survey for Alums

Start of Block: Default Question Block

What year did you graduate with your DDS degree?

- ☐ 2015 (1)
 - ☐ 2016 (2)
 - ☐ 2017 (3)
 - ☐ 2018 (4)
 - ☐ 2019 (5)
 - ☐ 2020 (6)
 - ☐ 2021 (7)
 - ☐ 2022 (8)
 - ☐ 2023 (9)
 - ☐ 2024 (10)
 - ☐ 2025 (11)
-

What level of importance do you place on establishing a risk level for caries or periodontitis for your patients?

	Very Low		Moderate		Very High
	1	2	3	4	5
Level of importance ()					

To what extent does your risk assessment influence your selection of procedures?

	Not at All		Moderate		A Great Deal
	1	2	3	4	5
To what extent ()					

For caries, to what extent do you take the following factors into account when establishing a risk level?

	Very Low		Moderate		Very High
	1	2	3	4	5
Oral hygiene ()					
Fluoride exposure ()					
Frequency consuming sugared drinks and sugared snacks ()					
Xerostomia ()					

For periodontitis, to what extent do you take the following factors into account when establishing a risk level?

	Very Low		Moderate		Very High
	1	2	3	4	5
Oral hygiene ()					
Diabetes ()					
Smoking ()					
Obesity ()					

For caries or periodontitis, to what extent do you take the following factors into account when establishing a risk level?

	Very Low		Moderate		Very High
	1	2	3	4	5
General Health ()					
What if nothing is done for the patient. What will the patient look like in five years? ()					
Patient compliance ()					
Social barriers (Transportation, finances, support system, domestic stability/instability) ()					
Current disease level ()					
Dental literacy ()					
Your prognosis ()					

How confident are you a person at low risk/minimal disease will remain with minimal disease?

Very Low Moderate Very High

1 2 3 4 5

Level of confidence ()

How confident are you that a person at high risk with recurring disease will convert to sustained health (minimum disease)?

Very Low Moderate Very High

1 2 3 4 5

Level of confidence ()

Which describes the way you make decisions on risk assessment?

- ☐ Intuitive (1)
- ☐ Structured (2)

Which of the following is the best description of your practice activities for risk analysis?

- ☐ I do not use the ideas from the exercises in the College (1)
- ☐ I use the ideas from the exercises in the College and developed my own thought processes (2)
- ☐ I use the thought processes largely as offered in the College (3)
