

Supplementary Data File 4: Example of study population data summarised for each type of consent

Do you agree for us to share your DNA sample for genetic analysis together with your health information for International studies being done to better understand type 2 diabetes? Your genetic data and health data may be shared with other international researchers for other studies in the future (*consent_international_research_v2*) [Refresh Plot](#) | [View as Bar Chart](#) ▼

Total Count (N)	Missing*	Unique
21	0 (0.0%)	2

Counts/frequency: **Yes** (15, 71.4%), **No** (6, 28.6%)
