

Application scenario

This is Sarah. Sarah is a professional nurse and currently on duty caring for...

Application scenario

Uniklinik RWTH Aachen

Seite 2

...her patient, Mr. M. Due to severe physical restrictions, Mr M. can hardly help with nursing measures himself. So Sarah needs support.

Application scenario

Uniklinik RWTH Aachen

Seite 3

Therefore, she is going to use the Pfluko robot today.

Application scenario

Uniklinik RWTH Aachen

Seite 4

Sarah would like to replace the wound bandage on Mr. M's lower leg. To do this, she says: "PfleKo: Lift leg!"

Application scenario

Uniklinik RWTH Aachen

Seite 5

The robot processes the command with the help of a microphone. Using a camera, the robot finds the right place to hold Mr. M's leg.

Application scenario

Uniklinik RWTH Aachen

Seite 6

While the robot is holding Mr. M's leg, Sarah can treat the wounds and replace the bandage.
