| 24.                             | Number of data coders          | How many data coders coded the data?                                                                                                     |  |
| 25.                             | Description of the coding tree | Did authors provide a description of the coding tree?                                                                                    |  |
| 26.                             | Derivation of themes           | Were themes identified in advance or derived from the data?                                                                              |  |
| 27.                             | Software                       | What software, if applicable, was used to manage the data?                                                                               |  |
| 28.                             | Participant checking           | Did participants provide feedback on the findings?                                                                                       |  |
| Reporting                       |                                |                                                                                                                                          |  |
| 29.                             | Quotations presented           | Were participant quotations presented to illustrate the themes / findings? Was each quotation identified? <i>E.g. Participant number</i> |  |
| 30.                             | Data and findings consistent   | Was there consistency between the data presented and the findings?                                                                       |  |
| 31.                             | Clarity of major themes        | Were major themes clearly presented in the findings?                                                                                     |  |
