INTRODUCTORY STATEMENT

**I know the flowchart from the guideline on LRTIs
by heart**

Were the flowcharts followed?

Reasons for non-adherence

Were the flowcharts followed compared to audit (2021-2022)?

What do you notice?

INTRODUCTORY STATEMENT

We generally adhere to the guideline when performing the CRP test.

Was the CRP test performed in accordance with the flow chart?

CRP TEST INDICATED

■ Appropriate test CRP ■ No CRP while indication
■ Intentionally non-adherent

CRP TEST NOT INDICATED

■ Appropriate abstain CRP-test ■ CRP test with no indication
■ Intentionally non-adherent

Are the results recognizable?

Is the prescribed AB in adherence with the guideline?

N = total number of forms with AB prescriptions and work diagnosis LRTI

INTRODUCTORY STATEMENT

**We prescribe the recommended antibiotics more often
than last year**

Prescribed AB compared to last audit (2021-2022)

Types of AB prescribed

N = total number of forms with AB prescriptions and work diagnosis LRTI

Types of AB prescribed compared to last audit (2021-2022)

Is this as you expected?

What is in the local formulary?

Recap results LRTI
