Total Number of Blood pressure measuring devices (BPMD)

Number of functional devices available

(Total)

Number of devices out of service/awaiting repair

(Total)

Mercury BPMDs

Number of functional devices available

Number of devices out of service/awaiting repair

Aneroid BPMDs:

Number of functional devices available

Number of devices out of service/awaiting repair

Automatic BPMDs:

Number of functional devices available

Number of devices out of service/awaiting repair

MAUC tapes

Number of functional devices available

Number of devices out of service/awaiting repair

Stadiometres (Height measurement)

Number of functional devices available

Number of devices out of service/awaiting repair

Weighing scales

Number of functional devices available

Number of devices out of service/awaiting repair

ECG machines*

Number of functional devices available

(* considered functional if usable.)

Number of devices out of service/awaiting repair

Glucometer*

Number of functional devices available

(* considered functional if usable.)

Number of devices out of service/awaiting repair

Repair & Maintenance

How often are blood pressure measuring devices (BPMDs) calibrated and checked for accuracy?

- ☐ Never
☐ Less than once a year
☐ Once a year or more
☐ Don't know

How is equipment usually repaired and maintained?

- ☐ Repaired at the facility
☐ Sent back to manufacturer for repair
☐ Sent back to "government store" for repair
☐ Other

If other, please specify:

Are there difficulties in getting repairs to equipment done?

- ☐ Yes ☐ No

Please describe the difficulties:

Antihypertensive Medication

Study No

HTN Management Guidelines

Do you have national guidelines for the diagnosis and management of HIV/HTN available in this facility?

☐ Yes ☐ No

Type of guideline (#1)

Guideline seen

☐ No ☐ Yes seen ☐ Yes not seen

Type of guideline (#2)

Guideline seen

☐ No ☐ Yes seen ☐ Yes not seen

Access to BP Medications

Are medicines for treatment of hypertension available at this facility?

☐ Yes ☐ No

Who pays for anti-hypertensive medicines used at this facility

- ☐ Government
☐ Out of pocket
☐ Others

If Others, please specify:

Are there protocols available to guide HTN/HIV integrated management?

☐ Yes ☐ No

Are these protocols pinned up in the facility for healthcare providers to use?

☐ Yes ☐ No

Availability of specific medicines at this facility (tick only one box for each medicine):

Thiazide diuretic (e.g. Bendrofluthiazide (Aprinox), Hydrochlorothiazide...)

- ☐ No drugs in the drug class are available at all
☐ Some drug within the drug class is always available
☐ At least one drug within the class is always available, but not always the same drug
☐ At least one drug within the drug class is sometimes available
☐ Stock out in the last 3 months

Calcium channel blocker (e.g. Nifedipine, Amlodipine)

- ☐ No drugs in the drug class are available at all
☐ Some drug within the drug class is always available
☐ At least one drug within the class is always available, but not always the same drug
☐ At least one drug within the drug class is sometimes available
☐ Stock out in the last 3 months

Beta-blocker (e.g. Propranolol, Atenolol, Bisoprolol)

- ☐ No drugs in the drug class are available at all
- ☐ Some drug within the drug class is always available
- ☐ At least one drug within the class is always available, but not always the same drug
- ☐ At least one drug within the drug class is sometimes available
- ☐ Stock out in the last 3 months

ACE inhibitors (e.g. Captopril, Lisinopril, Enalapril...)

- ☐ No drugs in the drug class are available at all
- ☐ Some drug within the drug class is always available
- ☐ At least one drug within the class is always available, but not always the same drug
- ☐ At least one drug within the drug class is sometimes available
- ☐ Stock out in the last 3 months

Angiotensin receptors blockers (e.g. Losartan, Candesartan, valsartan, Telmisartan)

- ☐ No drugs in the drug class are available at all
- ☐ Some drug within the drug class is always available
- ☐ At least one drug within the class is always available, but not always the same drug
- ☐ At least one drug within the drug class is sometimes available
- ☐ Stock out in the last 3 months

Others

- ☐ No drugs in the drug class are available at all
- ☐ Some drug within the drug class is always available
- ☐ At least one drug within the class is always available, but not always the same drug
- ☐ At least one drug within the drug class is sometimes available
- ☐ Stock out in the last 3 months
