

Follow-up contact (via phone) with owners of dogs included in a previous study (1).

Name of dog:
Breed:
Age:
Name of owner:
Telephone number:
E-mail address:
1. Is the dog still alive?
If no, which was the cause of death?
2. Since the previous sampling, has the dog developed clinical signs possibly related to prostatic disease?
If yes, which signs?
3. Has the dog been treated for prostatic disease?
If yes,
Which diagnosis was made?
When was the dog treated?
Which treatment was given?
4. Has the dog been castrated?
If yes,
Why?
Was it a surgical or a medical castration?
5. Does the dog have another disease?
If yes, which:
6. Do you want to participate in the study?
If no, why not?
