Consent form and Proforma

Consent Form (for subject/ Patient)

The advantages and disadvantages of the research in which I am expected to participate, for which I have to donate blood sample which has been explained to me. I, willingly under no pressure from the researcher (i) agree to take part in this research and agree to participate in all the investigations which will help acquire knowledge for the benefit of mankind and (ii) agree to donate my 3 blood. My consent is explicitly not for disclosing any personal information. I have informed that CUJ and the researchers (PI and his/her colleagues) will take my prior consent before they get any monetary benefit from research based on my samples.
