Additional file 1: Figure S1. Schematic diagram of plasmid constructs for the expression of ScFDC gene. (A) *E. coli* YHP05 harboring pHB-CA-FDC and pYHP. ScFDC gene was cloned in pHB-CA-FDC under the *P_{trc}* promoter (B) *E. coli* YHP05 harboring pHB-CA and pYHP-FDC. ScFDC gene was cloned in pYHP-FDC under the constitutive *BBa_J23100* promoter.
