

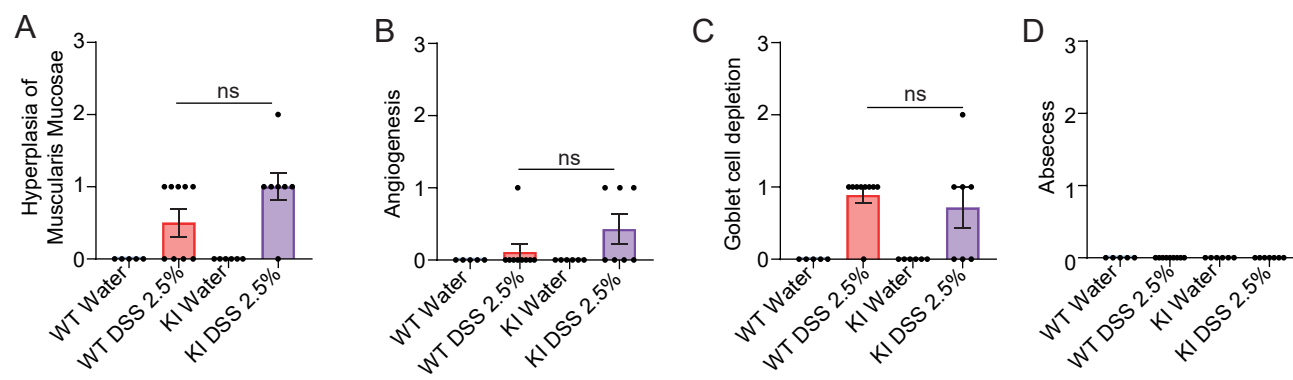

Figure S2

Histological score of (A) hyperplasia of muscularis mucosae parameter, (B) angiogenesis parameter and (C) goblet cell depletion parameter. (D) Histological score of abscess parameter for water treated WT (n=5) and KI (n=6) and DSS treated WT (n=9) and KI (n=7) mice. All the graphs show the mean $\pm$ SEM. For the statistics, a One-Way ANOVA test was performed.
