

Figure 2B

The original Western Blot images of Bax in Figure 2B. From left to right: Control, DPP, GAA, DPP+GAA.

Figure 2B

The original Western Blot images of Bcl-2 in Figure 2B. From left to right: Control, DPP, GAA, DPP+GAA.

Figure 2B

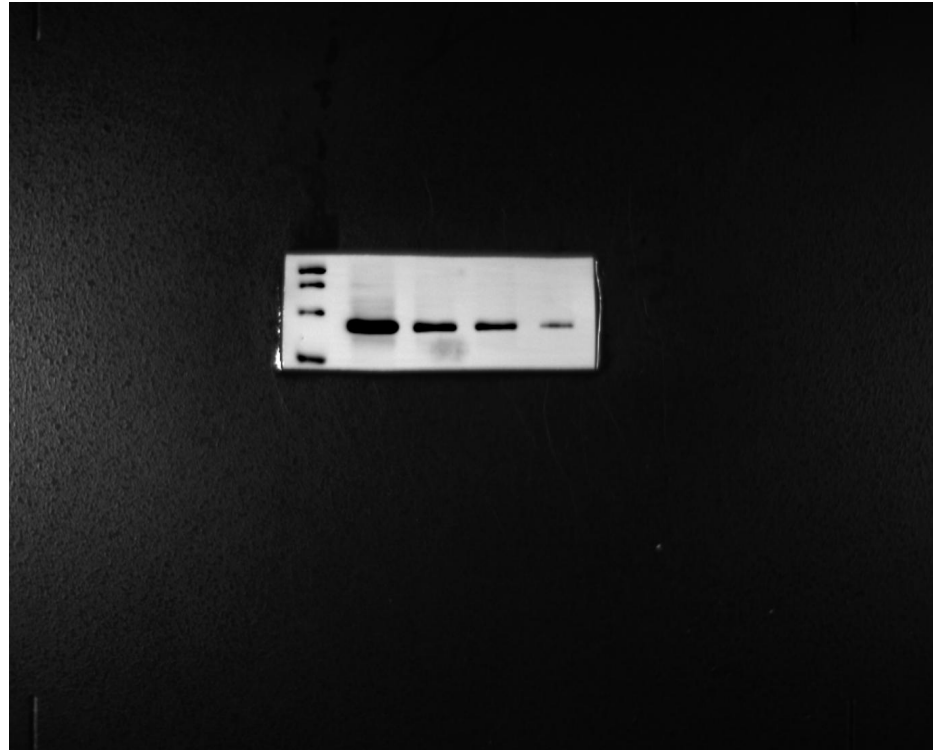

The original Western Blot images of cleaved-caspase 3 in Figure 2B. From left to right: Control, DPP, GAA, DPP+GAA.

Figure 2B

The original Western Blot images of β -actin in Figure 2B. From left to right: Control, DPP, GAA, DPP+GAA.

Figure 3C

The original Western Blot images of SOX2 in Figure 3C. From left to right: Control, DPP, GAA, DPP+GAA.

Figure 3C

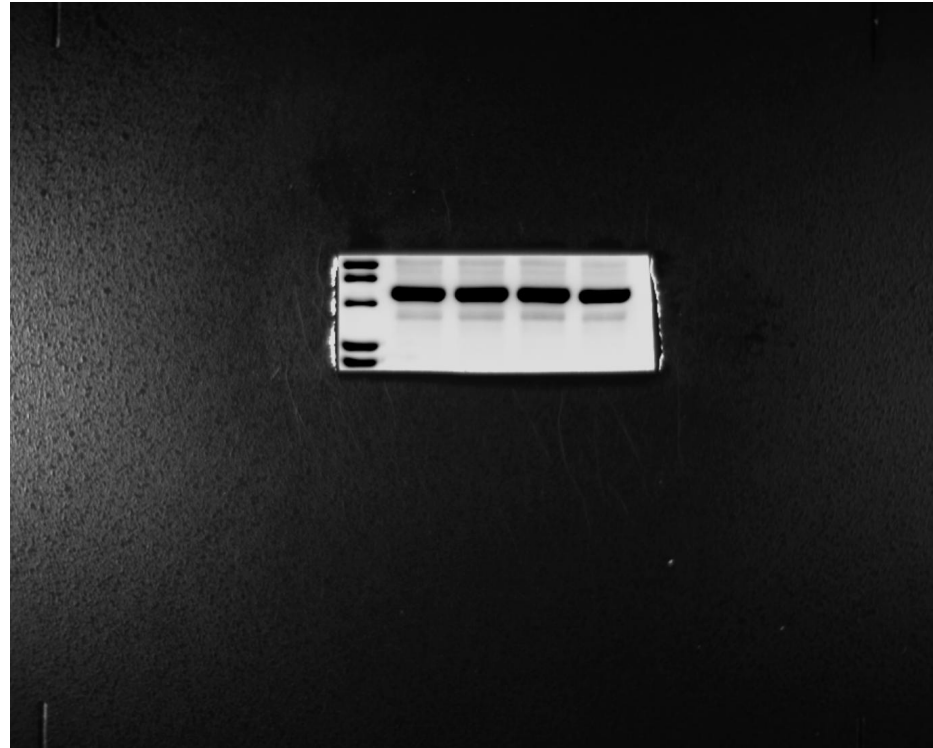

The original Western Blot images of Oct4 in Figure 3C. From left to right: Control, DPP, GAA, DPP+GAA.

Figure 3C

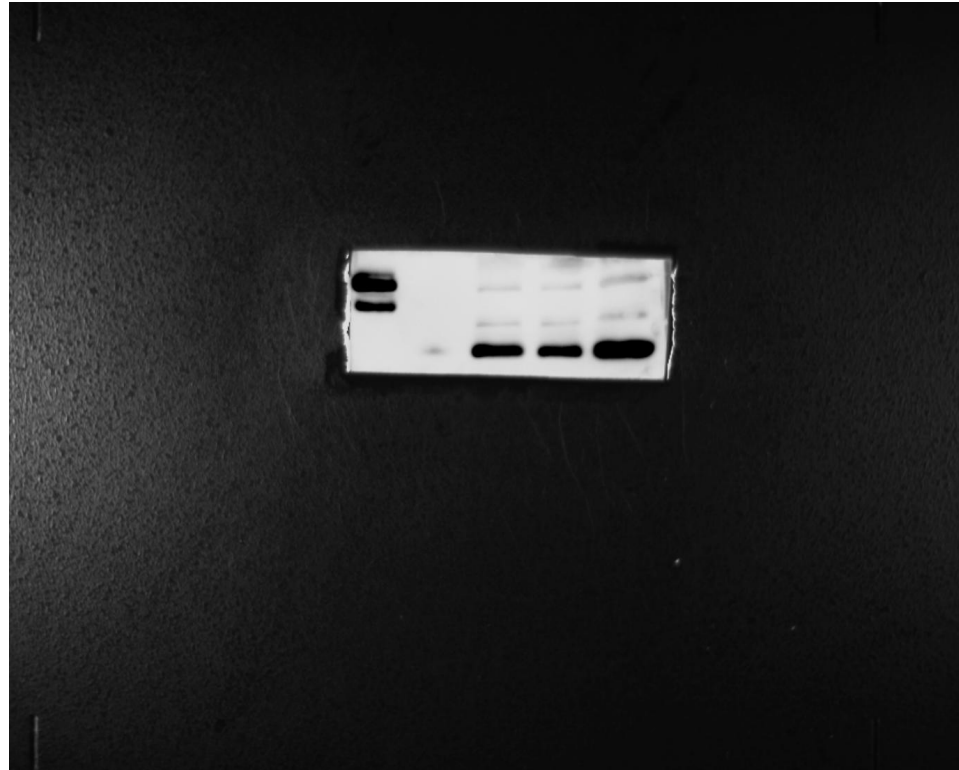

The original Western Blot images of NANOG in Figure 3C.
From left to right: Control, DPP, GAA, DPP+GAA.

Figure 3C

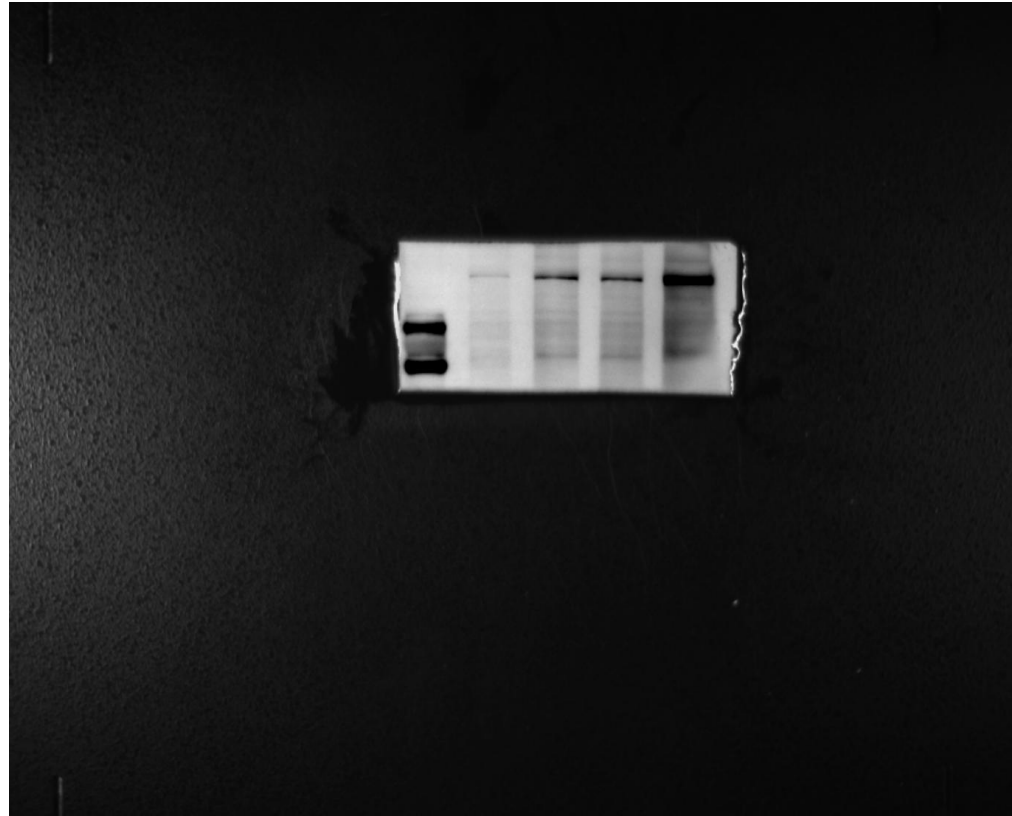

The original Western Blot images of β -actin in Figure 3C. From left to right: Control, DPP, GAA, DPP+GAA.

Figure 4B

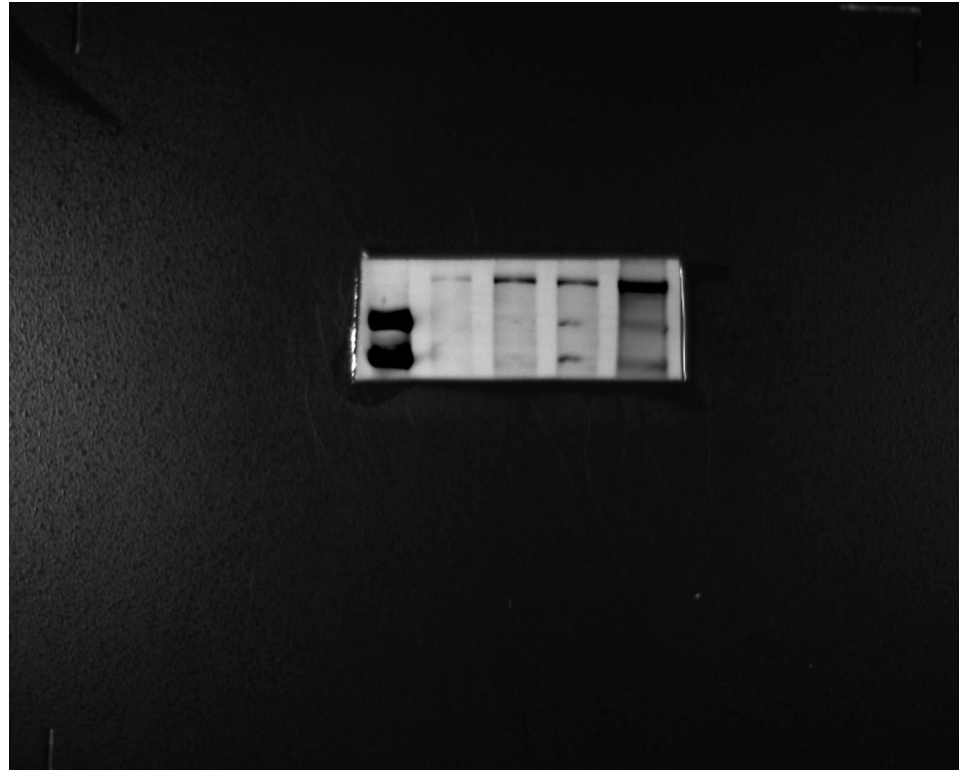

The original Western Blot images of γ H2AX in Figure 4B. From left to right: Control, DPP, GAA, DPP+GAA.

Figure 4B

The original Western Blot images of p-ATM in Figure 4B. From left to right: Control, DPP, GAA, DPP+GAA.

Figure 4B

The original Western Blot images of p-ATR in Figure 4B. From left to right: Control, DPP, GAA, DPP+GAA.

Figure 4B

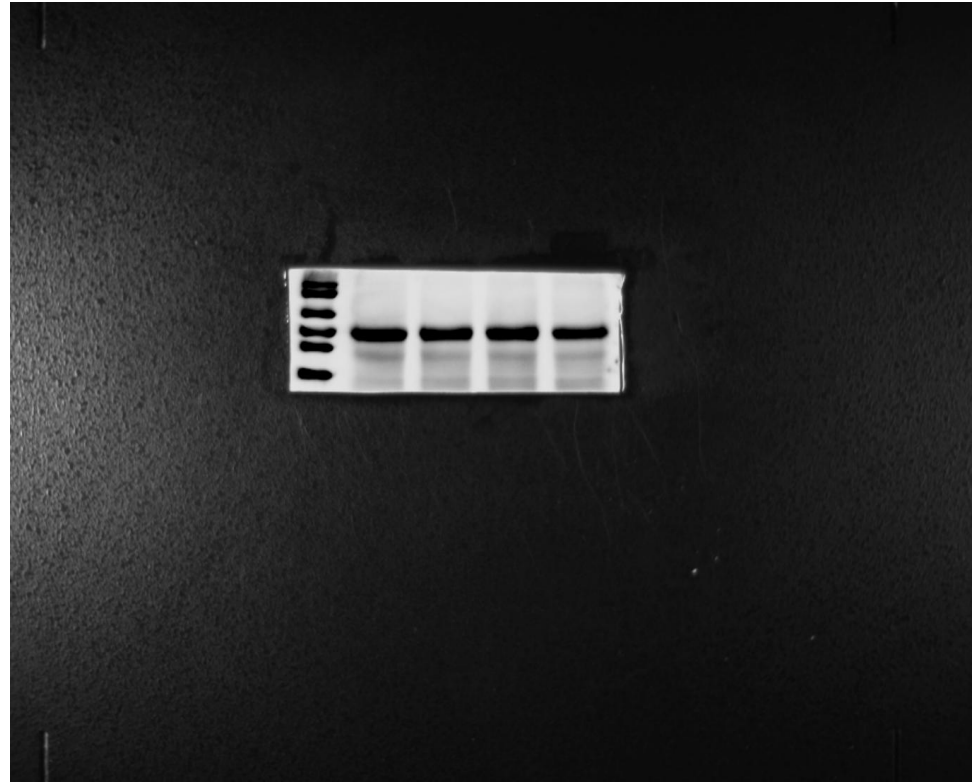

The original Western Blot images of p-p53 in Figure 4B. From left to right: Control, DPP, GAA, DPP+GAA.

Figure 4B

The original Western Blot images of β -actin in Figure 4B. From left to right: Control, DPP, GAA, DPP+GAA.

Figure 5

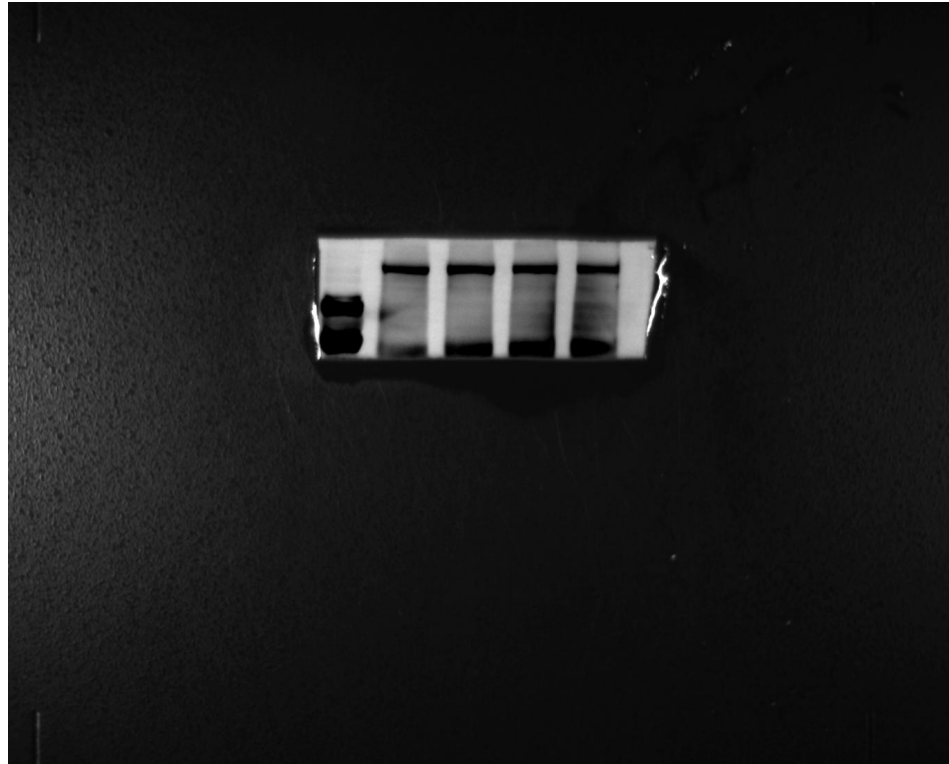

The original Western Blot images of AMPK in Figure 5. From left to right: Control, DPP, GAA, DPP+GAA.

Figure 5

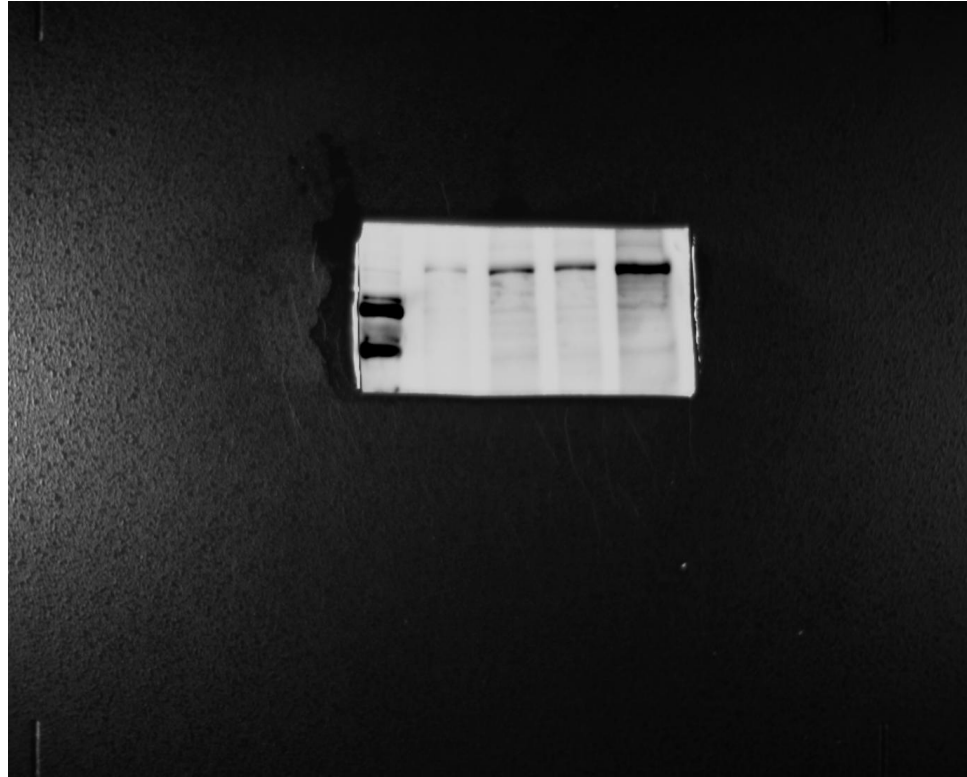

The original Western Blot images of p-AMPK in Figure 5. From left to right: Control, DPP, GAA, DPP+GAA.

Figure 5

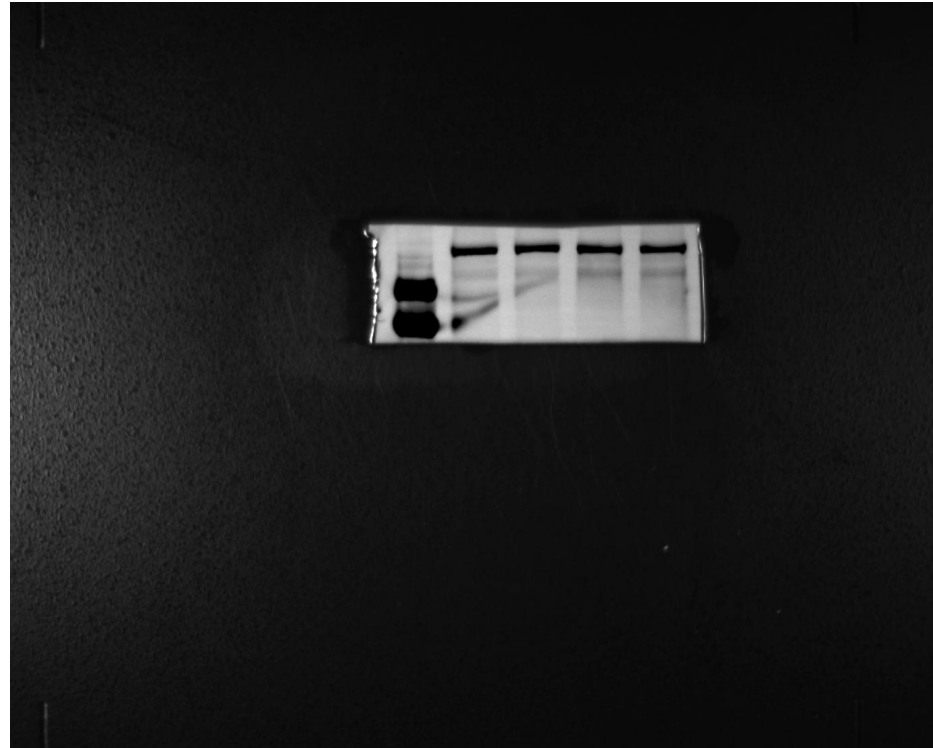

The original Western Blot images of ACC in Figure 5. From left to right: Control, DPP, GAA, DPP+GAA.

Figure 5

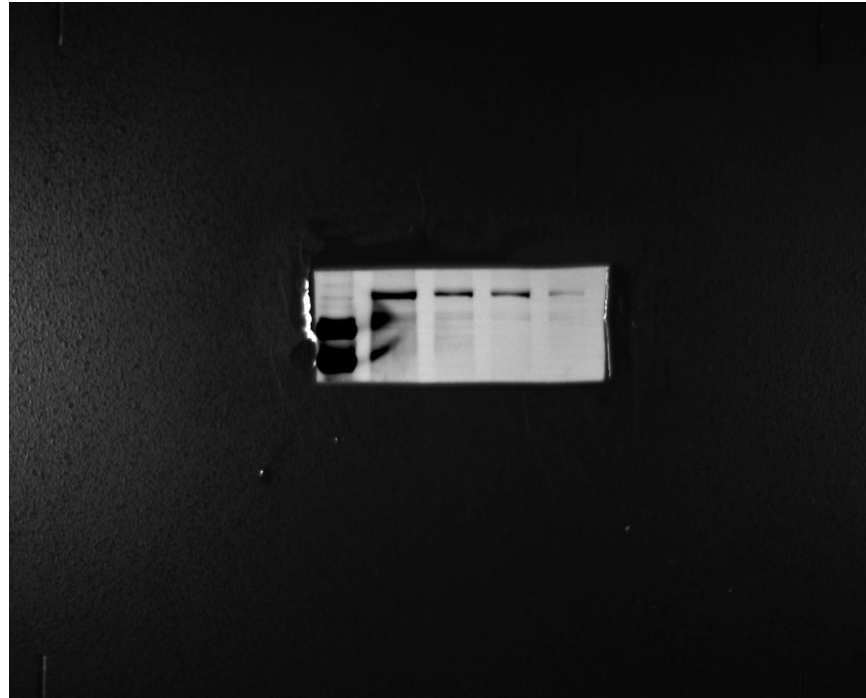

The original Western Blot images of p-ACC in Figure 5. From left to right: Control, DPP, GAA, DPP+GAA.

Figure 5

The original Western Blot images of mTOR in Figure 5. From left to right: Control, DPP, GAA, DPP+GAA.

Figure 5

The original Western Blot images of p-mTOR in Figure 5. From left to right: Control, DPP, GAA, DPP+GAA.

Figure 5

The original Western Blot images of β -actin in Figure 5. From left to right: Control, DPP, GAA, DPP+GAA.
