Professor Francesco Marincola
Editor-in-Chief
Journal of Translational Medicine

Dear Prof. Francesco Marincola

We would like to express our gratitude for the opportunity to submit the revised version of our manuscript entitled "A systematic review of non-coding RNA therapeutics in early clinical trials: a new perspective against cancer", by Grillone K, Caridà G et al, for consideration as systematic review in *Journal of Translational Medicine*.

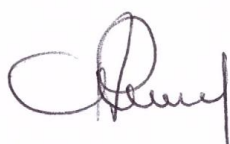

We revised our manuscript according to the reviewers' suggestions; in particular, we have performed a revision of the English language, made changes in the order of paragraphs to improve the readability and provided additional information to facilitate the reading of the text.

We hope that you will find the paper now suitable for publication in *Journal of Translational Medicine*.

We confirm that neither the manuscript nor any parts of its content have been previously submitted for consideration or published in another journal.

All authors have approved the manuscript and agree with its submission to *Journal of Translational Medicine*.

Sincerely,

A handwritten signature in purple ink, appearing to read 'P. Tassone'.
