

README for Additional file 7

Reproducibility package repository link

Purpose.

This file serves as the entry document for the reproducibility package associated with the study "From feasibility to translational pathways: a bibliometric and knowledge-mapping analysis of urine-based liquid biopsy in urologic cancers (2015–2025)".

Zenodo repository DOI.

10.5281/zenodo.19185653

Repository contents.

- **Additional_file_7_WoS_CC_included_records.csv** - Exported WoSCC included-record file used for the main bibliometric analyses.
- **Additional_file_7_PubMed_sensitivity_records.csv** - PubMed record file used for matched cross-database validation and sensitivity analysis.
- **Additional_file_7_Fig9B_TrendTopics.R** - R script used for the trend-topics analysis corresponding to Figure 9B.
- **Additional_file_7_Table1-2_WorldMap.R** - R script used for the country-level world-map analysis corresponding to Figure 3A and the summary tabulations corresponding to Tables 1 and 2.
- **Additional_file_7_thesaurus.txt** - Custom thesaurus file used for term cleaning and keyword normalization.
