

Western Blot Raw Data

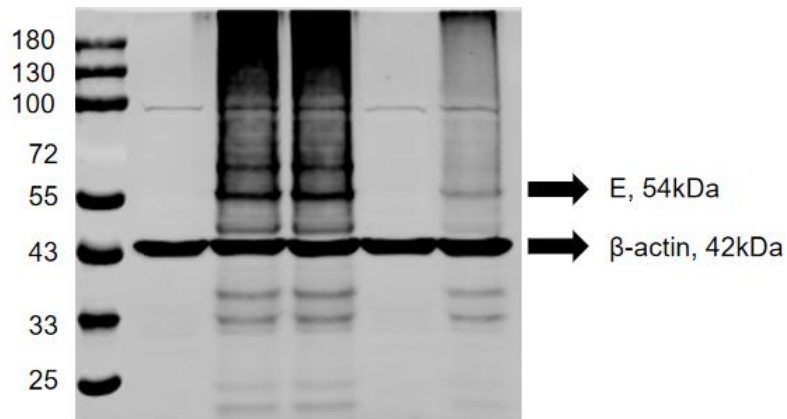

Fig 2(B)

Western blot assessment of DENV-2 E protein expression in infected cells.

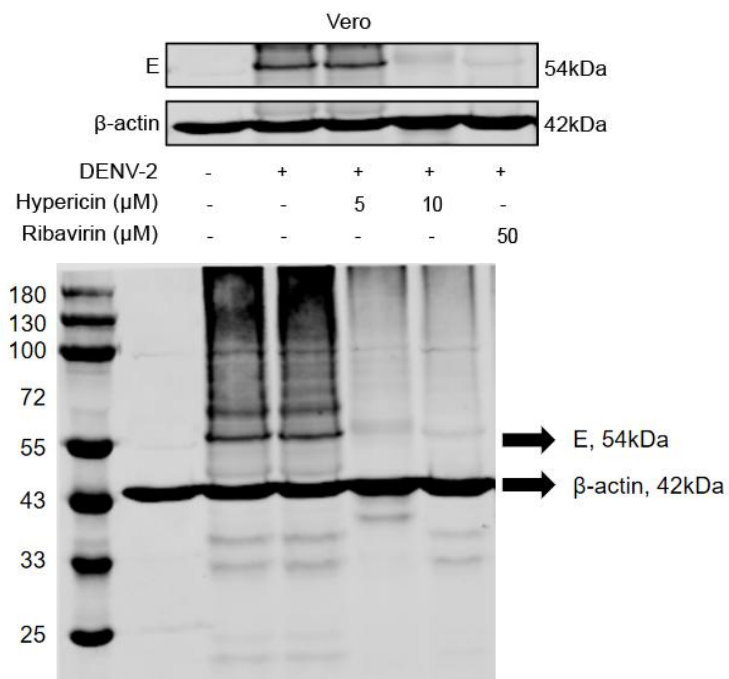

Fig 3(E)

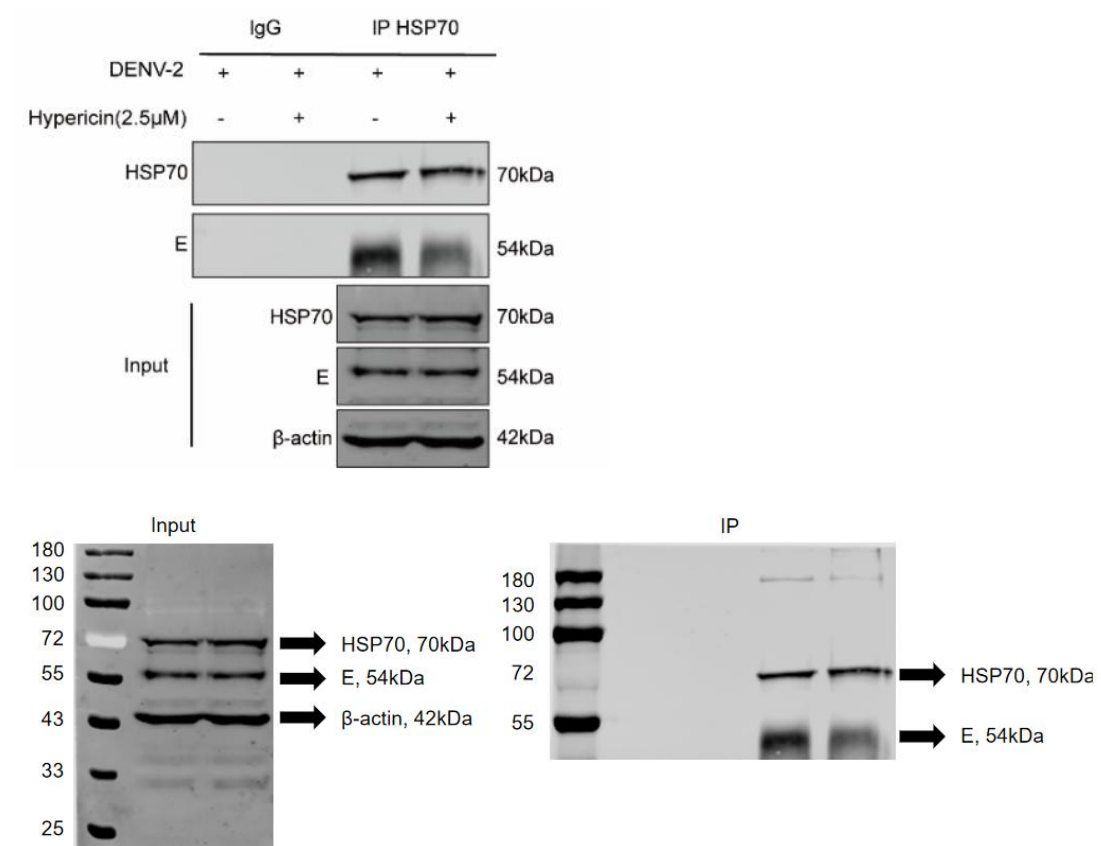

Expression levels of DENV-2 envelope protein in A549 cell lines were evaluated by Western blot analysis.

Fig 3(F)

Expression levels of DENV-2 envelope protein in Vero cell lines were evaluated by Western blot analysis.

Fig 7(B)

Detection of the relationship between E protein and HSP70 via Co-IP in the presence or absence of hypericin.
