

a Volcano plot of differentially expressed genes**b** Transcription Factor Enrichment Analysis (TFEA)**c** Kinase Enrichment Analysis (KEA)**d** Enrichment analysis: KEGG pathway**e** GO Biological Process**GSE6339**

Supplementary Figure 6 (A). Gene expression data analysis of GSE6339 GEO dataset a) Volcano plot of differentially expressed genes, b) Transcription factor enrichment analysis (through X2k analysis from iLINCS database c) Kinase enrichment analysis, d) Enrichment analysis of DEGs: KEGG pathway, e) GO Biological Process

a. Clustergram

b. WIKI pathways

c. REACTOME pathways

d. GO Molecular Function

e. DisGeNET

f. HMDB

g. Cell type- Human gene Atlas

Supplementary Figure 6 (B). Transcriptomics analysis of GSE6339 dataset : Enrichr analysis a) Clustergram of significant pathways, b) WIKI pathways, c) Reactome pathways, d) Gene Ontology (GO) Biological process, e) diseases (DisGeNET), Metabolite (HMDB databases) and Cell type (Human gene Atlas)
