Right chest

- ☐ Pneumothorax
☐ Normal
☐ Not done
☐ Unable to assess

Left chest

- ☐ Pneumothorax
☐ Normal
☐ Not done
☐ Unable to assess

Pouring blood

Right haemothorax

- ☐ Yes
☐ No
☐ Not done
☐ Unable to assess

Left haemothorax

- ☐ Yes
☐ No
☐ Not done
☐ Unable to assess

Haemoperitoneum

- ☐ Yes
☐ No
☐ Not done
☐ Unable to assess

Problems encountered with PoCUS

Issue(s) encountered with the US machine

- ☐ Yes
☐ No

Issue(s) with

- ☐ Probe attachment or working
☐ Tablet power
☐ App functioning
☐ US controls in app
☐ Image acquisition
☐ Image/ video saving
☐ Other
 (Select all that apply)

Issue(s) encountered with patient

- ☐ Yes
☐ No

Issue(s) with...

- ☐ Patient refusal
☐ Obese
☐ Frail
☐ Distorted anatomy
☐ Other
 (Select all that apply)

Issue(s) encountered due to environment

- ☐ Yes
☐ No

Issue(s) with....

- ☐ Ambient light
 - ☐ Limited access to patient
 - ☐ Limited time
 - ☐ Other
- (Select all that apply)

Issue(s) encountered due to operator

- ☐ Yes
- ☐ No

Issue(s) with....

- ☐ Operator knowledge
 - ☐ Operator confidence
 - ☐ Image interpretation
 - ☐ Other
- (Select all that apply)

Clinical Context and Comments:
