

**Additional file 1. Specific activities of Accellerase<sup>®</sup> Duet enzyme**

|                             | Specific activities (U/g) |
|-----------------------------|---------------------------|
| Endoglucanase (CMC)         | 2400-3000                 |
| $\beta$ -Glucosidase (pNPG) | > 400                     |
| Xylanase (ABX)              | > 3600                    |
