^A Patient ID 1-5,7-8 and 38 were from Pong Nam Ron, all others were from Phanom
^B Disease Symptomology: M=Malaria D=Dengue fever
^C Mosquito Genus: *Culex* spp., *Anopheles* spp., *Aedes* spp., *Armigeres* spp., *Mansonia* spp.
^D Household Construction: Con=concrete
^E Method used at the home: C=coil, BN=bed net, F=fan, T=tempehos, R=repellent, E=eliminate breeding site, S=fire/smoke, L=long sleeve, Z=bug zapper, Fo= fogging
^F Occupation: F= farmer, E=employee, G=government officer, U=unemployed, O=other
^G How often slept under a bed net: Every = every night, Few = a few times a week, Rarely = rarely
