

C T A T T G T C T A G A

The image displays a DNA double helix structure. The top strand is composed of the following nucleotides: C (blue), T (red), A (green), T (red), T (red), G (orange), T (red), C (blue), T (red), A (green), G (orange), A (green). The bottom strand is composed of the following nucleotides: G (green), A (blue), T (red), A (orange), C (blue), T (green), A (red), G (orange), T (blue), A (green), C (red). The base pairs are: C-G, T-A, A-T, T-A, G-C, T-A, C-G, T-A, A-G, A-T.
