

Additional file 5: Figure 5. *hoxa11* expression in lungfish. (a) Frontal view of the neural tube with white arrows showing faint mRNA labelling; dorsal to top. (b) White arrowhead points to expression in posterior somites; dorsal to top, anterior to left. (c,d) Black arrowheads indicate anterior limit of the transcript signal near the distal opening of the digestive tract; dorsal to top, anterior to left. Scale bars: 150 μ m.
