

Supp. Fig. 3. Expression of Myh3 in the oozoid. (A1-A5) Confocal projections of an early oozoid in three channels and their overlay. (A6) Details of larval regressing muscle. (B1-B3) Selected Z-stacks highlighting the forming intersiphonal muscles. (D1-D4) and (E1-E4) Confocal projections of a fully developed oozoid in three channels and their overlay in two Z level respectively. Hoechst (cyan), Myh3 (magenta), bright field (grey). SV: sensory vesicle. Scale bar 50 micron.
