

Additional File 3

Pdzd8 mRNA expression in different cell types in adult mouse cerebral cortex and hippocampus. Single-cell RNA-seq data from the Allen Cell Types Database for *Pdzd8* and *Actb* (reference gene) among 42 types of glutamatergic (**A**, **B**) and GABAergic (**C**) neurons and non-neuronal cells (**D**) in cerebral cortex and hippocampal formation from adult (postnatal day P53-P59) mice, presented as trimmed mean log₂ CPM (counts per million reads mapped), averaged after excluding the 25% highest and 25% lowest expression values [34].
