

Supplementary Figure Legends

Supplementary Figure S1. Karyotypes of the iPSC lines. Karyotypes of (A) the 3 WT-iPSC lines and (B) the 3 TS-iPSC lines.

Supplementary Figure S2. Correlation analyses of mRNA, lncRNA and circRNA expression profiles among the samples. (A) principal component analysis (PCA) and (B) Pearson correlation coefficient (PCC) analysis of mRNA expression profiles among the samples of WT-iPSC, WT-CM, TS-iPSC and TS-CM groups. (C) PCA and (D) PCC analyses of lncRNA expression profiles among the samples. (E) PCA and (F) PCC analyses of circRNA expression profiles among the samples.

Supplementary Figure S1.

A.

WT1-iPSC

B.

TS1-iPSC

WT2-iPSC

TS2-iPSC

WT3-iPSC

TS3-iPSC

Supplementary Figure S2.
