

Supplementary Data 10. Maps depicting the process of myoblast fusion in non-treated Gal-3KO mouse myoblasts used in the Gal-3 and/or GlcNAc addition experiments (Control)

Maps were generated using data from the single-cell tracking of non-treated Gal-3KO myoblasts for the Gal-3 and/or GlcNAc addition experiments. In these maps, the following symbols are used to represent specific events: Light blue circle: Mitosis, Pink square: Cell death, Orange circle and vertical line: Cell fusion, Black vertical line: Bipolar cell division, and Gray square: Movement out of the field of view.
