

Supplementary Data 12. Maps depicting the process of myoblast fusion in Gal-3KO mouse myoblasts treated with 2 mM GlcNAc (+GlcNAc)

Maps were generated using data from the single-cell tracking of Gal-3KO myoblasts treated with 2 mM GlcNAc. In these maps, the following symbols are used to represent specific events: Light blue circle: Mitosis, Pink square: Cell death, Orange circle and vertical line: Cell fusion, Black vertical line: Bipolar cell division, and Gray square: Movement out of the field of view.

Analysis: Gal-3KO Gal-3-GlcNAc, Treat.: +GlcNAc, Cell: Myoblasts
