

Supplementary Fig. 5. Illustrated images of myoblasts, binuclear fused myoblasts, and myotubes
 Illustrated images of primary Gal-3KO myoblasts for Control (**A**), +Gal-3 (**B**), +GlcNAc (**C**), and +Gal-3+GlcNAc (**D**) conditions at the end of the single-cell tracking period are shown. Myoblasts are shown in green, binuclear fused myoblasts in light blue, and myotubes (cells with more than three nuclei) in yellow. Scale bar: 50 μ m.
