

Additional File 2. *Staphylococcus* and *Streptococcus* species included in the MBT Compass Library Rev. H (2021), Document Revision E, covering 3893 species/entries.

| <b><i>Staphylococcus</i> spp.</b>      | <b><i>Streptococcus</i> spp.</b>                 |
|----------------------------------------|--------------------------------------------------|
| <i>Staphylococcus argenteus</i>        | <i>Streptococcus acidominimus</i>                |
| <i>Staphylococcus arlettae</i>         | <i>Streptococcus agalactiae</i>                  |
| <i>Staphylococcus aureus</i>           | <i>Streptococcus alactolyticus</i>               |
| <i>Staphylococcus auricularis</i>      | <i>Streptococcus anginosus</i>                   |
| <i>Staphylococcus borealis</i>         | <i>Streptococcus australis</i>                   |
| <i>Staphylococcus capitis</i>          | <i>Streptococcus caballi</i>                     |
| <i>Staphylococcus caprae</i>           | <i>Streptococcus canis</i>                       |
| <i>Staphylococcus carnosus</i>         | <i>Streptococcus castoreus</i>                   |
| <i>Staphylococcus chromogenes</i>      | <i>Streptococcus constellatus</i>                |
| <i>Staphylococcus cohnii</i>           | <i>Streptococcus criceti</i>                     |
| <i>Staphylococcus condimenti</i>       | <i>Streptococcus cristatus</i>                   |
| <i>Staphylococcus delphini</i>         | <i>Streptococcus dentirousetti</i>               |
| <i>Staphylococcus devriesei</i>        | <i>Streptococcus devriesei</i>                   |
| <i>Staphylococcus epidermidis</i>      | <i>Streptococcus didelphis</i>                   |
| <i>Staphylococcus equorum</i>          | <i>Streptococcus downei</i>                      |
| <i>Staphylococcus felis</i>            | <i>Streptococcus dysgalactiae</i>                |
| <i>Staphylococcus fleurettii</i>       | <i>Streptococcus entericus</i>                   |
| <i>Staphylococcus gallinarum</i>       | <i>Streptococcus equi_ssp_equi</i>               |
| <i>Staphylococcus haemolyticus</i>     | <i>Streptococcus equi_ssp_ruminantium</i>        |
| <i>Staphylococcus hominis</i>          | <i>Streptococcus equi_ssp_zooepidemicus</i>      |
| <i>Staphylococcus hyicus</i>           | <i>Streptococcus equinus</i>                     |
| <i>Staphylococcus intermedius</i>      | <i>Streptococcus ferus</i>                       |
| <i>Staphylococcus kloosii</i>          | <i>Streptococcus gallinaceus</i>                 |
| <i>Staphylococcus lentus</i>           | <i>Streptococcus gallolyticus</i>                |
| <i>Staphylococcus lugdunensis</i>      | <i>Streptococcus gordonii</i>                    |
| <i>Staphylococcus lutrae</i>           | <i>Streptococcus halichoeri</i>                  |
| <i>Staphylococcus massiliensis</i>     | <i>Streptococcus henryi</i>                      |
| <i>Staphylococcus microti</i>          | <i>Streptococcus hyointestinalis</i>             |
| <i>Staphylococcus muscae</i>           | <i>Streptococcus hyovaginalis</i>                |
| <i>Staphylococcus nepalensis</i>       | <i>Streptococcus infantarius</i>                 |
| <i>Staphylococcus pasteurii</i>        | <i>Streptococcus infantis</i>                    |
| <i>Staphylococcus petrasii</i>         | <i>Streptococcus iniae</i>                       |
| <i>Staphylococcus pettenkoferi</i>     | <i>Streptococcus intermedius</i>                 |
| <i>Staphylococcus piscifermentans</i>  | <i>Streptococcus lutetiensis</i>                 |
| <i>Staphylococcus pseudintermedius</i> | <i>Streptococcus macacae</i>                     |
| <i>Staphylococcus saccharolyticus</i>  | <i>Streptococcus marimammalium</i>               |
| <i>Staphylococcus saprophyticus</i>    | <i>Streptococcus massiliensis</i>                |
| <i>Staphylococcus schleiferi</i>       | <i>Streptococcus merionis</i>                    |
| <i>Staphylococcus schweitzeri</i>      | <i>Streptococcus minor</i>                       |
| <i>Staphylococcus sciuri</i>           | <i>Streptococcus mitis</i>                       |
| <i>Staphylococcus simiae</i>           | <i>Streptococcus moroccensis</i>                 |
| <i>Staphylococcus simulans</i>         | <i>Streptococcus mutans</i>                      |
| <i>Staphylococcus sp[2]</i>            | <i>Streptococcus oralis</i>                      |
| <i>Staphylococcus stepanovicii</i>     | <i>Streptococcus orisratti</i>                   |
| <i>Staphylococcus succinus</i>         | <i>Streptococcus orisuis</i>                     |
| <i>Staphylococcus vitulinus</i>        | <i>Streptococcus ovis</i>                        |
| <i>Staphylococcus warneri</i>          | <i>Streptococcus parasanguinis</i>               |
| <i>Staphylococcus xylosum</i>          | <i>Streptococcus parauberis</i>                  |
|                                        | <i>Streptococcus penaeicida</i>                  |
|                                        | <i>Streptococcus peroris</i>                     |
|                                        | <i>Streptococcus phocae</i>                      |
|                                        | <i>Streptococcus pluranimalium</i>               |
|                                        | <i>Streptococcus plurextorum</i>                 |
|                                        | <i>Streptococcus pneumoniae</i>                  |
|                                        | <i>Streptococcus porci</i>                       |
|                                        | <i>Streptococcus porcinus</i>                    |
|                                        | <i>Streptococcus porcorum</i>                    |
|                                        | <i>Streptococcus pseudopneumoniae</i>            |
|                                        | <i>Streptococcus pseudoporcinus</i>              |
|                                        | <i>Streptococcus pyogenes</i>                    |
|                                        | <i>Streptococcus ratti</i>                       |
|                                        | <i>Streptococcus salivarius</i>                  |
|                                        | <i>Streptococcus salivarius_ssp_thermophilus</i> |
|                                        | <i>Streptococcus sanguinis</i>                   |
|                                        | <i>Streptococcus sinensis</i>                    |
|                                        | <i>Streptococcus sobrinus</i>                    |
|                                        | <i>Streptococcus sp</i>                          |
|                                        | <i>Streptococcus suis</i>                        |
|                                        | <i>Streptococcus thoraltensis</i>                |
|                                        | <i>Streptococcus uberis</i>                      |
|                                        | <i>Streptococcus urinalis</i>                    |
|                                        | <i>Streptococcus vestibularis</i>                |
