B: Interview guide for qualitative key informant interviews involved in identifying relevant survey topics and sexual and reproductive health and rights themes (Angola, 2021).

General Perspectives on Women's Health and Rights

1. From your perspective:
 - a. What are the main challenges currently facing women's health in Angola?
 - b. What are the main challenges related to women's human rights in Angola?
2. In your opinion, what are the key barriers to improving:
 - a. Women's health?
 - b. Women's rights (e.g. the right to health, social security)?

Organisational Focus and Activities

3. How would you describe the main focus of your organisation?
4. What specific activities does your organisation undertake?
(*probing: target groups, geographical areas, health-related themes, etc.*)
5. Could you elaborate on any programmes that focus specifically on women's health and rights?
(*probing: details such as target groups, geographic coverage, etc.*)
6. Regarding these programmes:
 - a. What are the main challenges in achieving the intended goals? (*probing: elaborate on why these challenges exist*)
 - b. What would an ideal scenario look like for successful implementation of the programmes? (*probing: elaborate on why this would be ideal*)
7. What factors determine the areas your organisation prioritises?
(*probing: elaborate on how priorities and decisions are established; on what basis—e.g. mandate, funding sources, strategic focus*)

Wider Programming and Collaboration

8. Are you aware of other organisations or programmes—national or international—working on similar themes?
9. Does your organisation collaborate with any of these actors?
(*probing: elaborate on the nature of collaborations*)

Reflections on Gaps and Opportunities

10. In your view, what is needed to increase interest and engagement in women's health and rights?
11. Do you believe there are specific themes related to women's health and rights that are often overlooked, neglected, or considered taboo?
(*probing: elaborate on why they think this is the case*)
