

A

Alpha diversity of eukaryotic virus on species level between gender
Aedes aegypti (without Ab-AAF-1-3)

**B**

Alpha diversity of eukaryotic virus on species level between gender
Culex quinquefasciatus

**C**

Alpha diversity of eukaryotic virus on species level between locations
Aedes aegypti (without Ab-AAF-1-3)

Additional file 4: Alpha diversity of eukaryotic viruses on species level between gender or locations. (A) Alpha diversity comparison on eukaryotic viral species between gender of *Aedes aegypti*. (B) Alpha diversity comparison on eukaryotic viral species between gender of *Culex quinquefasciatus*. (C) Alpha diversity comparison on eukaryotic viral species between two collected locations of *Aedes aegypti*. Pairwise ANOVA: $p < 0.01$ (*), $p < 0.001$ (**), $p < 0.0001$ (***)
