## Infant 06 RTA3 expression over time

**Figure S6: Expression of RTA3 in strain C1\_006 shows no significant difference in expression between culture and in situ settings nor over time in infant 06 following fluconazole treatment.** (A) Boxplots of RTA3 expression values for strain C1\_006 both in a culture setting and in situ. (B) Time course measurement of RTA3 expression for strain C1\_006 measured within infant 06 fecal samples. Fluconazole treatment was administered to infant 06 at DOL 19 and caspofungin treatment at DOL 26.
