

Full paper relevance screening tool

Date: 30 December 2021

Inclusion and exclusion criteria

In addition to article information (authors, year of publication, title, journal, and abstract) the Excel spreadsheet contains columns where reviewers can note whether an article has met the inclusion criteria:

Inclusion criteria

Bipolar disorder

Adult working population

Executive function and/or self-regulation is researched in the context of employment

Full papers

Peer reviewed scientific papers and dissertations

Definition

Full-spectrum. Must be a disorder, no “manic-like experiences” without classification as bipolar disorder.

18-65 years.

Employment includes: paid employment, sheltered employment, volunteer work.

Including comments and errata.

Peer review: the paper is published in a journal which uses a peer-review process where experts in the same field check the overall quality of the submitted research (e.g. design), evaluate conclusions, and identify scientific errors to ensure and improve the quality of the submitted manuscript
