Subject: **Ethical Approval for research proposal**

Dear authors,

We are pleased to inform you that your research proposal entitled **The “unheard Adersity”:**
The lived experiences of socially isolated survivors of wartime sexual assault,” conducted on behalf of the college of Education and Behavioral Science, Department of Psychology at Woldia University, has received ethical approval from the College of Education and Behavioral Sciences Research and Community Service Coordination office Council members.

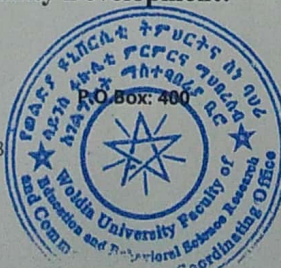

This letter serves as confirmation that your research proposal has met the necessary requirements for ethical approval and has been conducted in accordance with established ethical guidelines and principles. The Research and Community Services Council members carefully reviewed your research proposal, including the study design, data collection methods, and measures to protect participants, and have determined that it meets the ethical standards for research involving human subjects.

Congratulations on the successful permission to collect data, and we wish you the best in disseminating your findings.

Ethical research works for Community Development!
