

四川职业技术学院教师教育学院研究伦理审查申请表

School of Teacher Education, Sichuan Vocational and Technical College Application Form for

Research Ethics Review

课题名称 Project title	执行功能障碍与冲动性之间的纵向关系：基于交叉滞后网络分析 The longitudinal relationship between executive dysfunction and impulsivity: A cross-lagged panel network analysis		
申请人 Applicant	胡昌生 Changsheng Hu	电话/邮箱 Phone Number/Email	1921824953@qq.com
研究负责人 Principle Investigator	胡昌生 Changsheng Hu	电话/邮箱 Phone Number/Email	1921824953@qq.com
院系（申请人为学生应写明年级专业） Faculty	教师教育学院，教师 School of Teacher Education, Teacher		
申请目的(Purpose of application): (在□内打√: please mark “√” at the appropriate “□”): 1. 为发表学术论文进行伦理审查 (For scientific investigation) ☒ 2. 为申请科研项目进行伦理审查 (For grant application) ☐ 3. 为其他目的进行伦理审查, 请注明 (Other purposes, please note):			
1. 研究目的 (Project aims): 探究青少年执行功能障碍和冲动性网络中的关联模式，并探索不同执行功能障碍对青少年冲动性风险性作用。本研究将有效地减少青少年的冲动性，并揭示了青少年执行功能障碍对青少年冲动性的风险作用。(Explore the association patterns between executive function disorders and impulsivity networks in adolescents, and investigate the different impacts of executive function disorders on impulsivity risk in adolescents. This study will effectively reduce impulsivity among adolescents and reveal the risk effects of executive function disorders on adolescent impulsivity.) 2. 研究方法 (Methods): 本研究采用网络分析的方法，探究青少年执行功能障碍对冲动性的风险性作用，由受过专门培训的心理学家辅导青少年完成问卷，确保问卷填写的准确性和有效性。(This study employs network analysis to investigate the risk effects of executive function disorders on impulsivity in adolescents. Trained psychological professionals will guide adolescents in completing the questionnaires to ensure the accuracy and validity of the responses.) 3. 研究可能的受益 (Potential benefits): 本研究能帮助青少年了解冲动性和执行功能障碍之间的关联，最后结论有助于青少年以更健康的方式应对冲突和挫折，并减少冲动性。(This study can help adolescents understand the connection between impulsivity and executive function disorders. The final conclusions will assist adolescents in coping with conflicts and frustrations in a healthier manner and reduce impulsivity.) 4. 研究风险与不适 (Foreseeable risks to participants): 被试在参与研究时可能会暴露一些个人信息。在处理数据时，我们会使用匿名化等保护措施，确保没有任何个人隐私信息泄露或暴露。如果参与者在研究中感受到了不适或担忧，研究人员应提供必要的支持			

和幫助。(Some personal information of participants may be exposed while participating in the study. When processing data, we use protection measures such as anonymization to ensure that no personal information is leaked or exposed. If participants feel uncomfortable or concerned during the study, the researcher should provide the necessary support and assistance.)

5. 隱私問題(Privacy issue):

我們將嚴格保密被試在本研究中的個人資料,除非得到被試允許,否則我們不會泄露給第三方。(We will keep the personal information of participants and personal data in the study strictly confidential, and will not disclose it to any third party unless approved by the participants.)

6. 費用和補償(Compensation):

被試參與此項研究,將會獲得一些心理學科普讀物作為禮物。(Participants in the study were given a gift of popular psychology books.)

7. 自由退出(Free to withdraw from the study):

被試可以選擇在任何時間通知研究者退出本研究。(Participants can choose to withdraw from the study at any time.)

研究負責人意見(若申請人為學生由導師簽字)

Declaration from the principal investigator (if the applicant is a student, he/she must obtain permission and signature from his/her supervisor): 同意
