

A CD4⁺ gate

B CD8⁺ gate

Supplementary Figure 1. Gating strategies. (A) Gating strategy for different CD4⁺ T cell subsets in representative examples of LN⁻ (from patient 10), LN⁺ (from patient 10) and PT (from patient 7) as described by Miyara *et al.* (30). **(B)** Gating strategy for CD8⁺FoxP3⁺CD25⁺ T cells is provided in representative examples of LN⁻ (from patient 10), LN⁺ (from patient 10) and PT (from patient 7).
