

Black bear (BB09, tracked 143 days in 2009)

Prediction of *full SSF model*

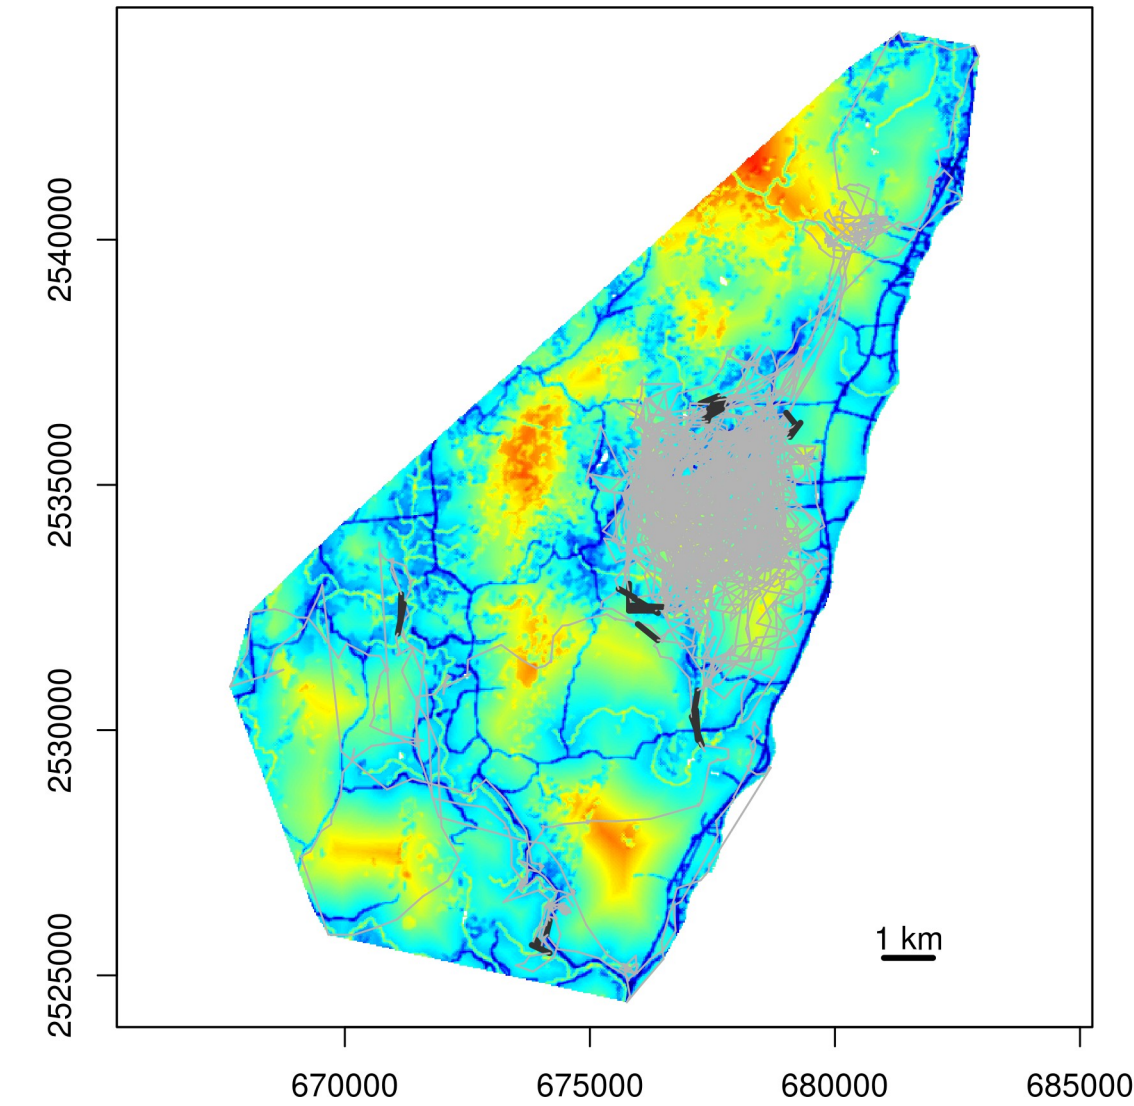

Prediction of *corridor SSF model*

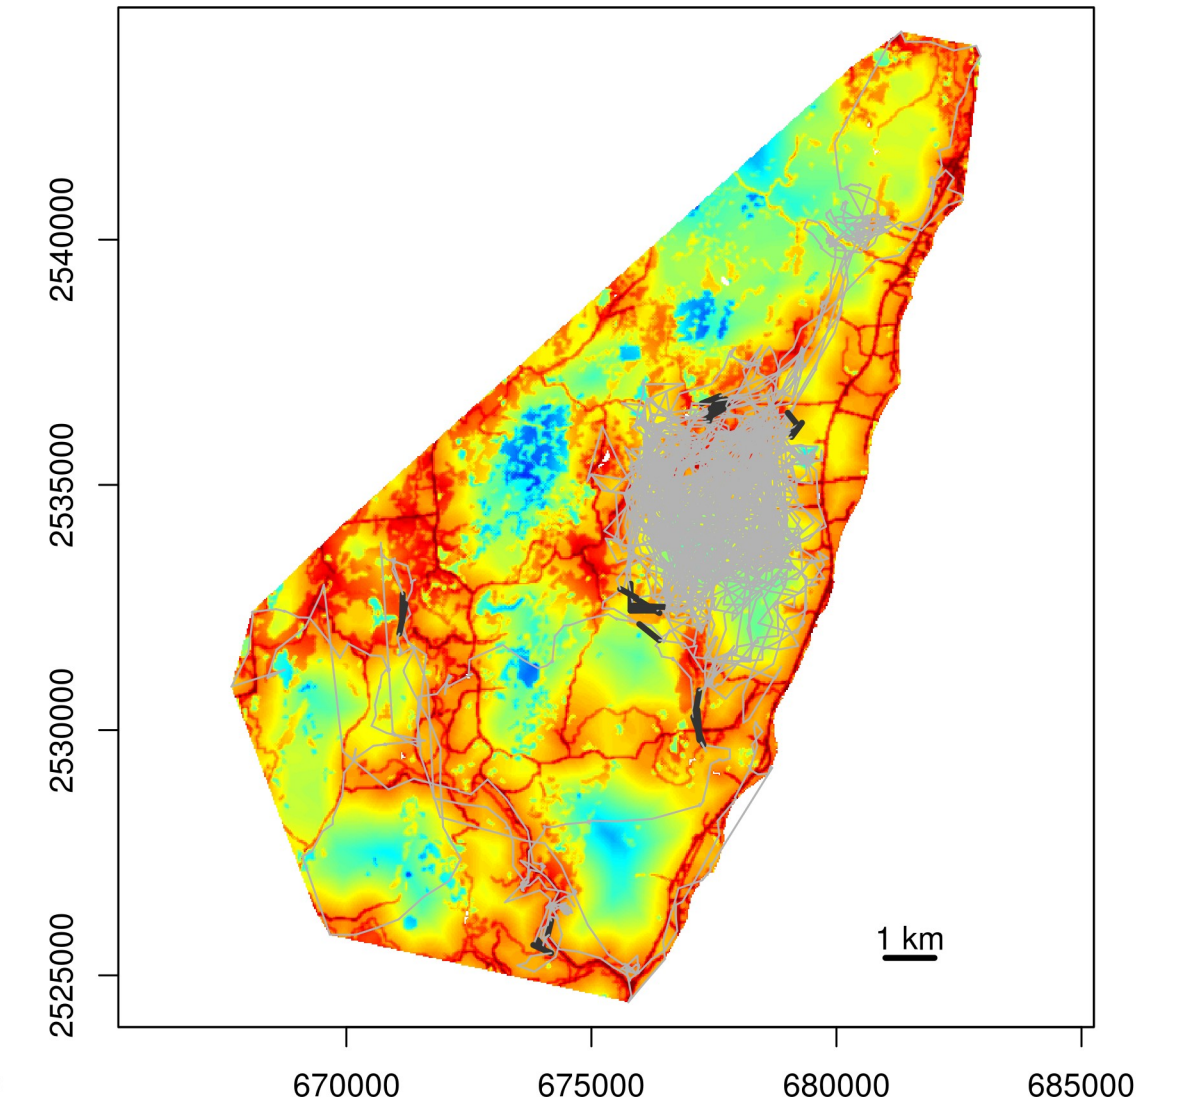

Coyote (C26, tracked 119 days in 2011)

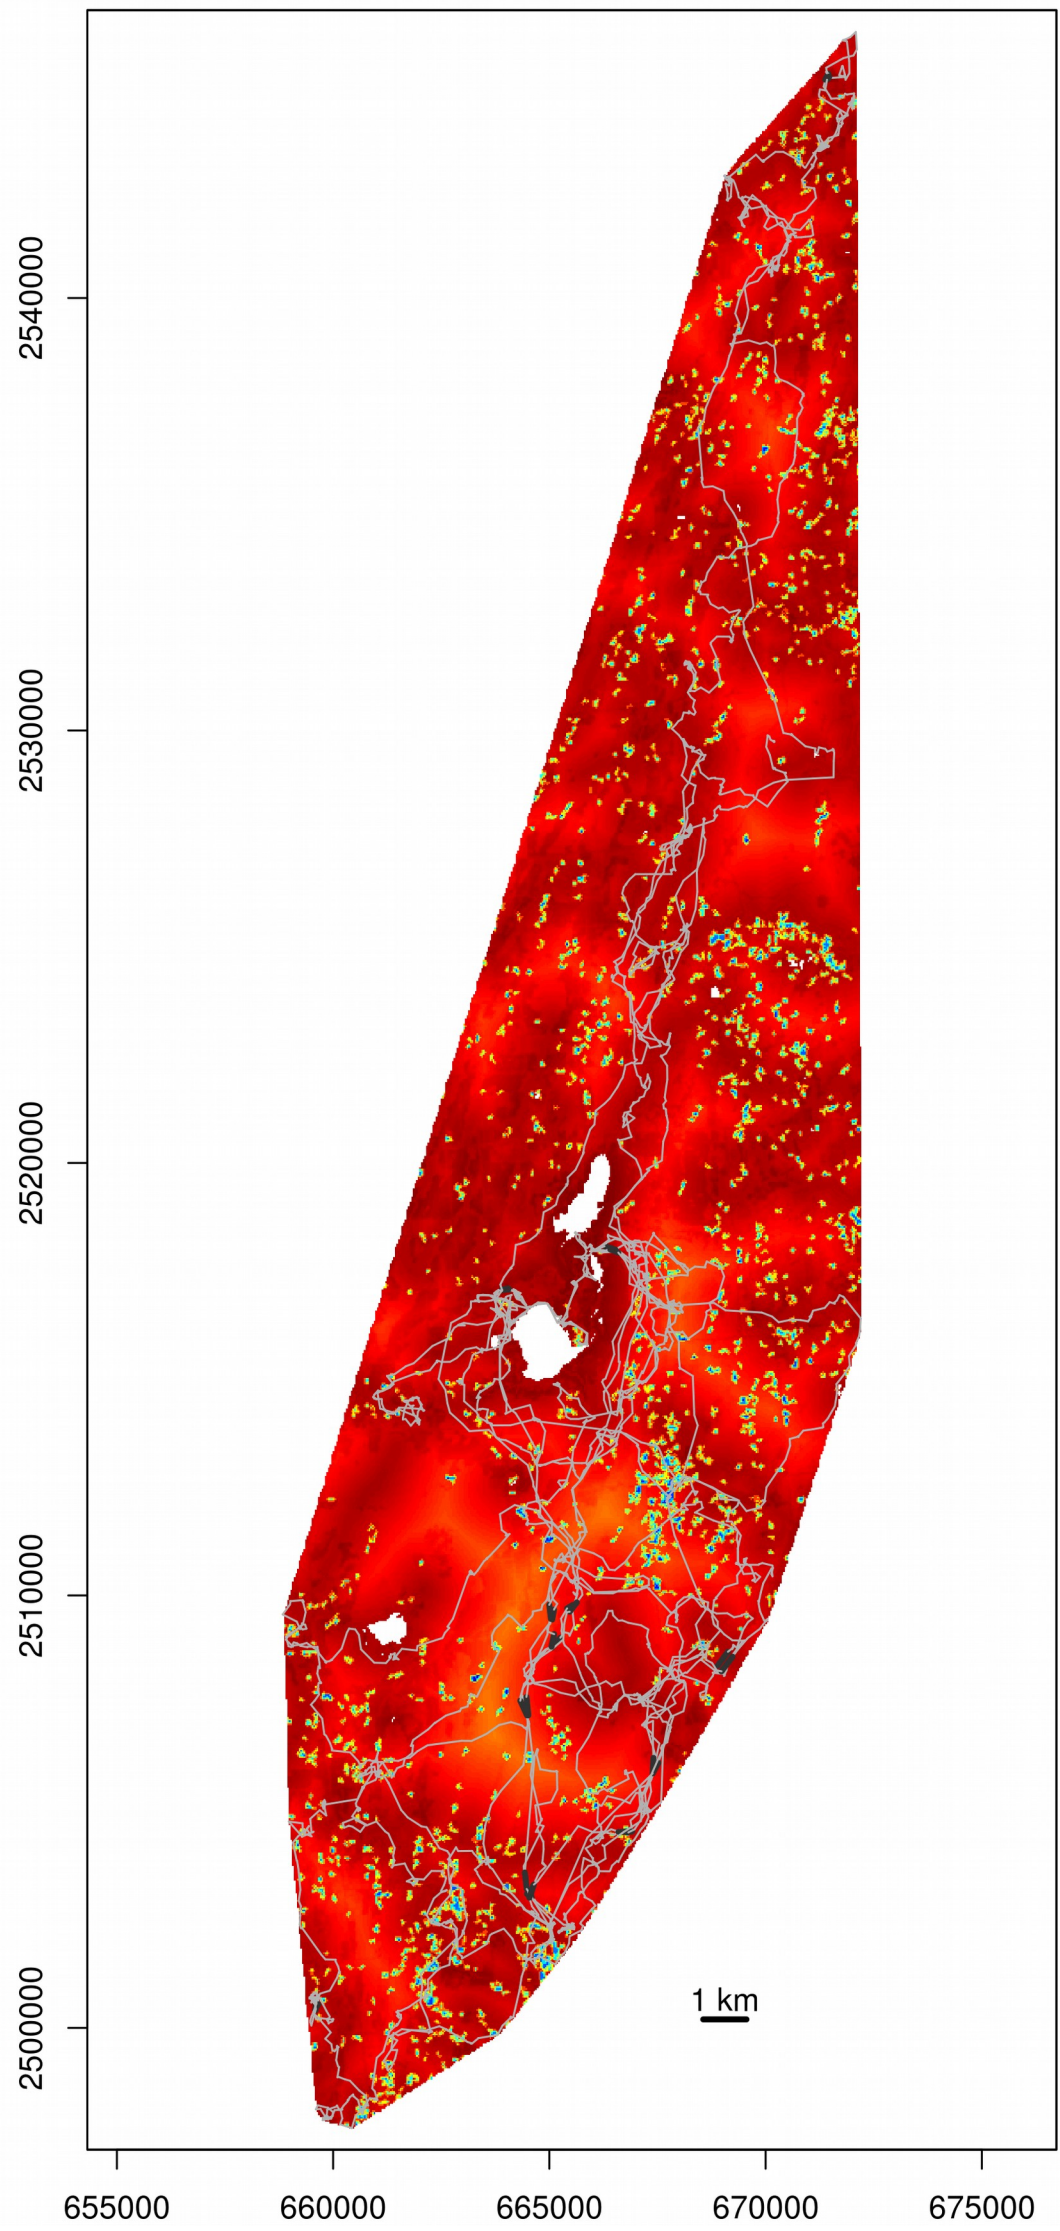

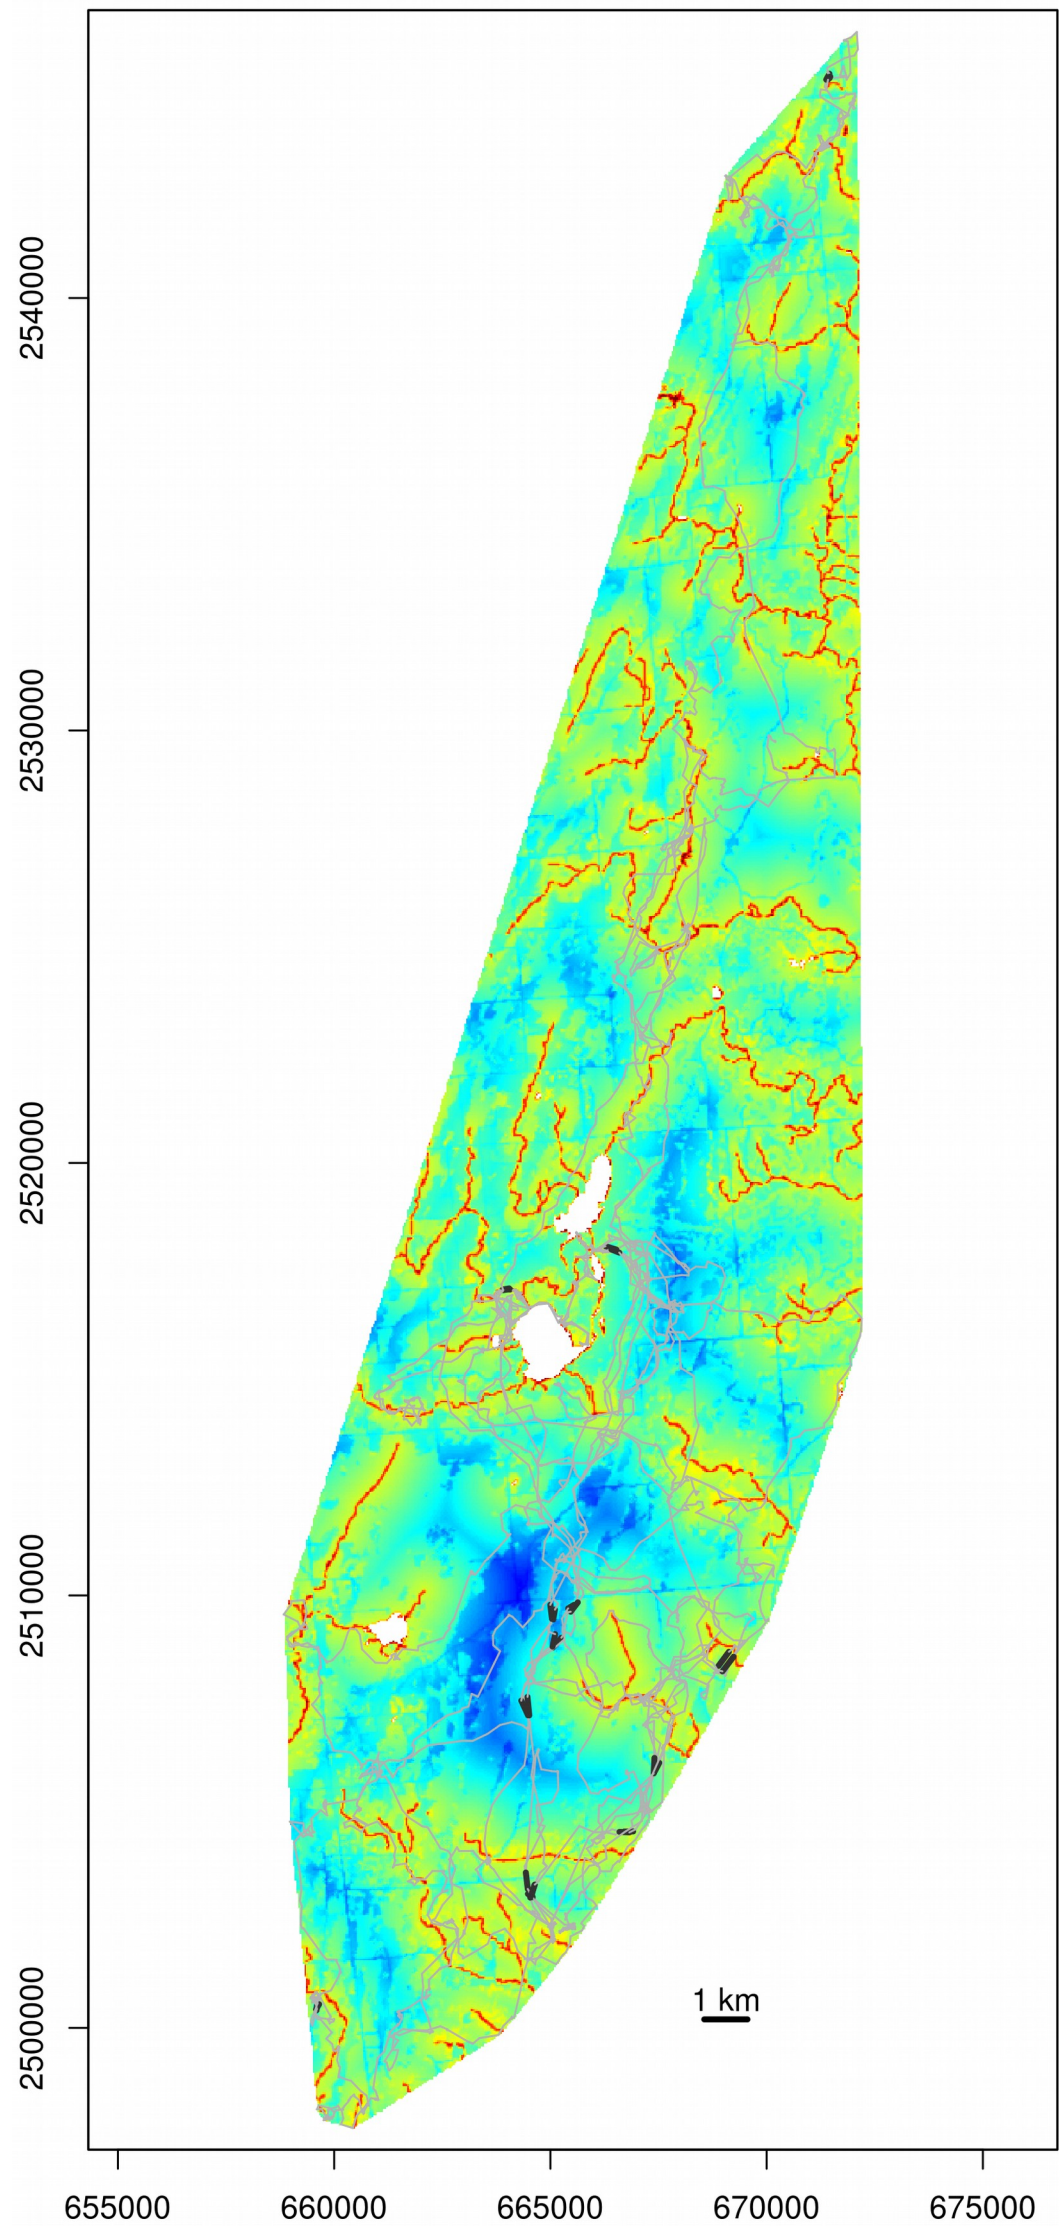

Prediction of *full SSF model*

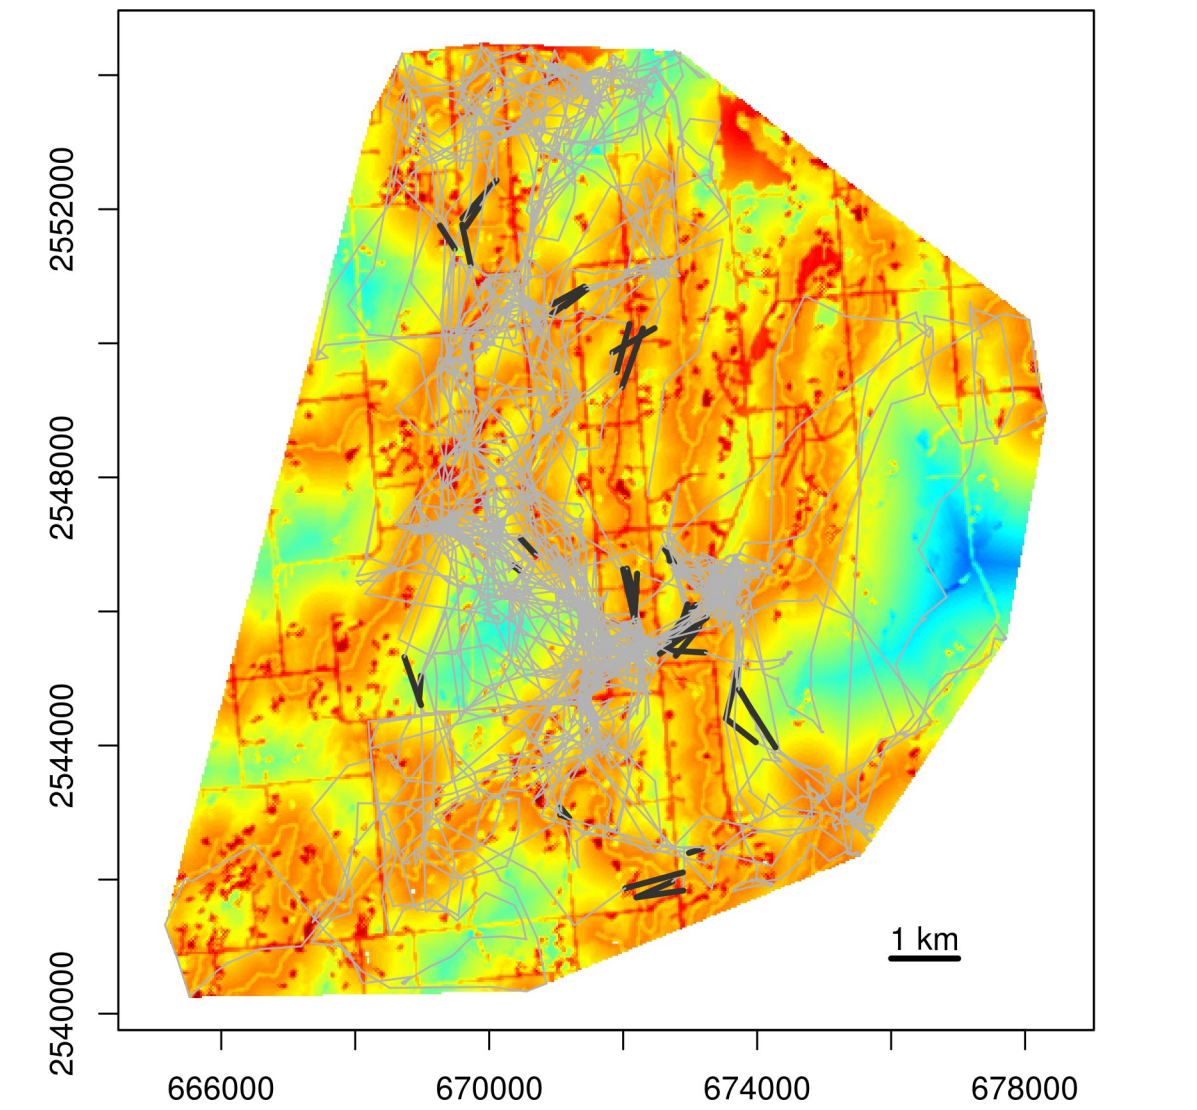

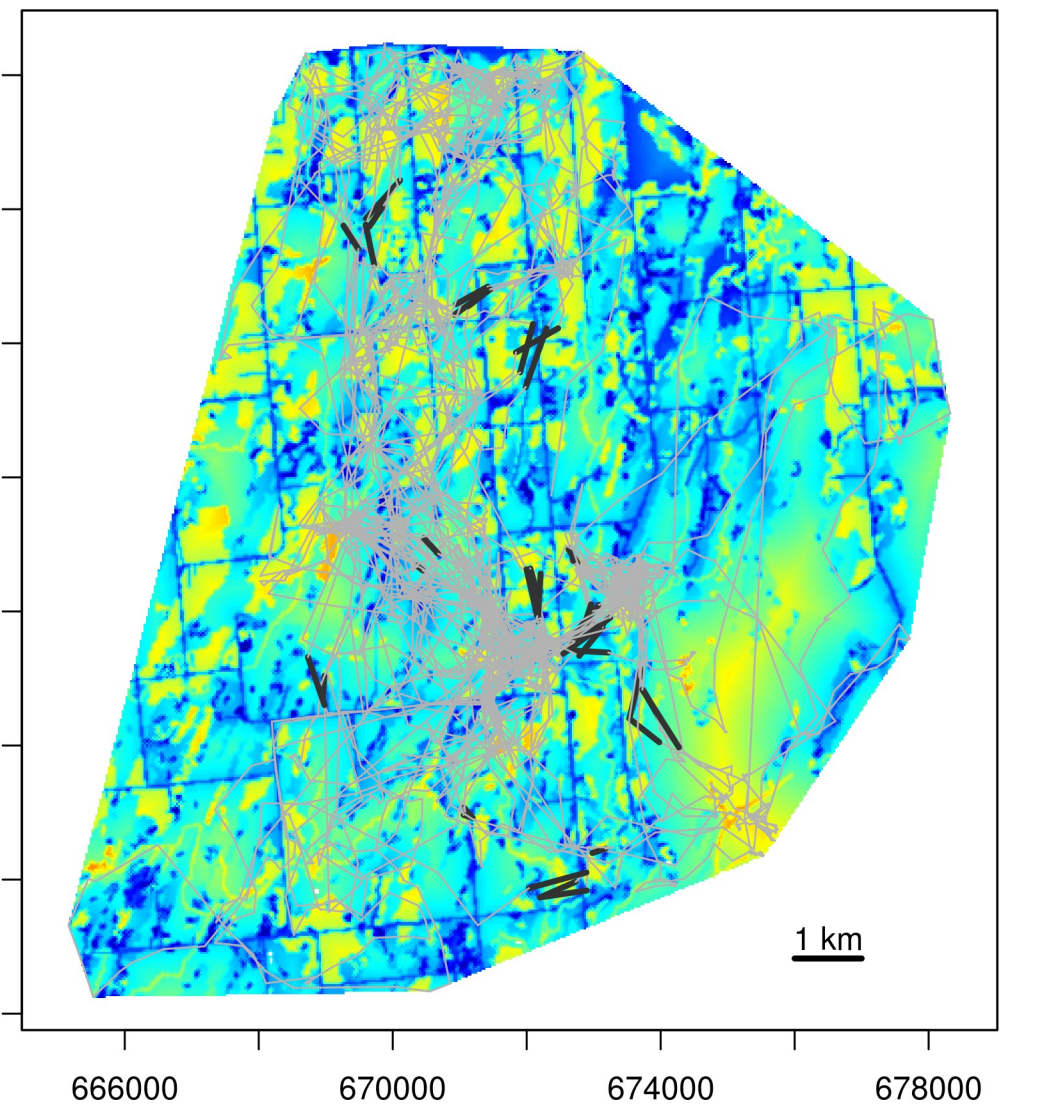

Prediction of *corridor SSF model*

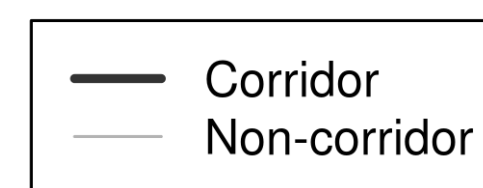

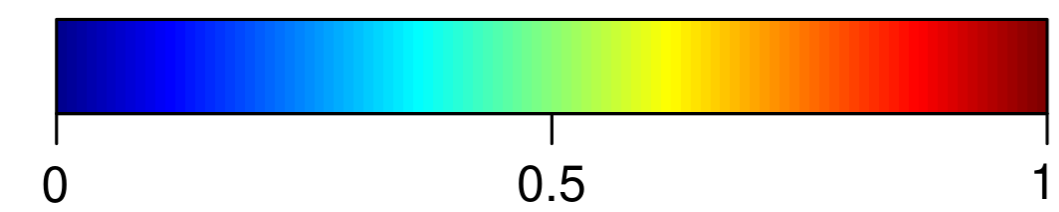

Bobcat (BC05, tracked 226 days in 2010)

Wolf (W08, tracked 111days in 2011)

Suitability

Additional file 6. Example of *full SSF model* and *corridor SSF model* predictions for one black bear, bobcat, coyote and wolf. Prediction area corresponds to the individuals' home range.
