

Giant PANDA Study Within A Project (SWAP)

The SWAP aims to evaluate optimisation of clinical trial delivery to maximise inclusivity and participation of pregnant women and birthing people with multiple long term conditions (two (or more) long-term conditions that need ongoing medical attention or limit daily activities).

This is part of the SWAP with the objective of evaluating health system set-up and research delivery capacity.

Thank you for participating, your time and input are very much appreciated.

* Required

1. Name of hospital/NHS trust *

2. What is the total number of reproductive health and childbirth studies you are currently actively recruiting to? *

- ☐ 0
- ☐ 1-5
- ☐ 6-10
