

D&I Science Capacity Building Survey

Start of Block: Block 6

Capacity Building in

Dissemination and Implementation Science (D&I) You are being invited to participate in a project titled “Capacity Building in Dissemination and Implementation Science (D&I)”. This study is being led by Borsika Rabin and Nicole Stadnick from the [University of California San Diego Altman Clinical and Translational Research Institute Dissemination and Implementation Science Center \(UC San Diego ACTRI DISC\)](#) to learn more about D&I capacity building initiatives nationally and internationally. You were selected to participate because you have been identified online or by colleagues as the primary contact for your D&I science center or program. Data from this project will be used to describe your center or program in publications and databases to share with the larger research and practice community.

We use the term dissemination and implementation to describe activities to advance the dissemination, adoption, implementation, and sustained use of evidence (i.e., program, procedure, policy, practice, pill, principle, product) in various settings including community or clinical settings. We realize that different countries use different terms to describe these activities including but not limited to knowledge translation, knowledge exchange, scale-up, etc. Our objective is to include all of these broadly defined programs and centers so that all are included in our database.

This survey should take 20-30 minutes to complete. Your participation in this survey is entirely voluntary and you can withdraw at any time by simply exiting. All data collected up to the point of exiting the survey will be retained. If you wish to have all of your data removed, please contact Clare Viglione at cviglione@health.ucsd.edu. You are also free to skip any question that you choose. Choosing not to participate or withdrawing will result in no penalty or loss of benefits to which you are entitled. If you want additional information or have questions or research-related problems, you may reach Dr. Borsika Rabin at barabin@health.ucsd.edu.

By clicking “I agree” you are indicating that you have read this consent form and agree to participate in this survey. [Click here](#) to print a copy of this page for your records.

Start of Block: Background

Thank you for agreeing to complete this survey! We will be asking questions about your Dissemination and Implementation (D&I) Science Program(s). As you are filling out the form, it may be helpful to get input from your colleagues to answer questions and provide the most up-to-date and comprehensive information. This survey is expected to take 20-30 minutes to complete.

Please note, this survey data will be used to create an inventory of D&I programs and centers and to describe their general characteristics and activities.
